Garford Nominated By "Bull Moosers"

**Bull Moosers Make Selection
By Acclamation.****BIG DEMONSTRATION FOLLOWS**

Nominee Discusses the Issues in His Speech of Acceptance, Declaring the Republican Party is Passing into Oblivion and That the Democratic Party's End is in Sight—Pronounces Roosevelt the Greatest Citizen of His Generation.

Memorial Hall, Columbus, Sept. 5.—Arthur L. Garford, manufacturer, of Elyria, O., was today selected as the standard-bearer of the new Progressive party of Ohio. His nomination for governor was by acclamation. A great demonstration followed, the several thousand delegates and spectators making the big hall ring with cheers, shoutings and songs.

E. E. Erskine of Steubenville, who was endorsed for governor by the Sixteenth district caucus, made possible the nomination of Mr. Garford by acclamation by deciding to become a candidate for judge of the supreme court.

Introduced to the convention by Chairman Garfield, Mr. Garford delivered his speech of acceptance, in which he said:

Fellow Progressives: I am profoundly grateful for this signal honor, far beyond my deserving, that comes to me at the hands of this, the greatest party convention ever assembled in the political annals of Ohio.

But a few weeks since many of us sat in this same auditorium fighting the last losing fight of a party we had loved and served a lifetime. We fought hopelessly, for the forces of reaction and evil were fronting us in a solid phalanx, but we fought to the last ditch, hoping against hope that the Republican party might yet be saved for continued service to the nation.

We had been proud of that party. Its creed was our creed, its aims our aims. We knew it had fallen into evil hands—that its glorious record of achievement had been tarnished by its latter day leaders—but we hoped to wrest it from the evil hands that were shaping its policies and destiny, and strove to turn it again to the honest service of the people.

But it is not necessary for me to recite again the bitterness of the struggle between corrupt political practices and the patriotic effort of the rank and file of that once splendid organization. You and I were helpless before the brutal strength of big business and big politics.

The worst elements in our national life were dominant in that convention and were dictating the terms of compromise. For American citizens, free born sons of the great state of Ohio, there was but one answer—and through the banner of the Progressive party of Ohio, which we have unfurled today, we give them their answer.

The Republican party is rapidly passing into oblivion. After sixty years of service it is going to its death, not at our hands, but at the hands of men who have prostituted it to selfish ends and wicked purposes. Shorn of all pretence, deserted

A. L. GARFORD**Bull Moose Nominee for Governor.****Aeroplane Driven Between
Towers of Famous Bridge**

Photo by American Press Association.

AN English air man recently performed the delicate feat of flying along the Thames in a waterplane under four of the bridges—Waterloo, London, Blackfriars and Hungerford—that span the river and through as well as under the Tower bridge. The illustration here reproduced shows him accomplishing the former feat. The clear space between the stone towers is 200 feet. The aviator, F. K. McLean, was successful during the greater part of his trip, but soon after he had passed the Tower bridge his machine "side slipped" in the air, struck the water and had to be towed to the shore.

OVERLOOKED SEAT CONTEST AT COLUMBUS

**Bull Moose Convention Opens
Without Friction.****COMMITTEES MAKE REPORTS**

Governor Hiram Johnson of California Rouses the Delegates When He Appears in the Hall and Makes a Brief Speech—Contests on For Minor Places on the Progressive Ticket—Proceedings of the Second Session.

Columbus, O., Sept. 5.—Delegates found no abatement of the hot wave when they assembled in Memorial hall this morning for the second session of the Bull Moose convention. Nine o'clock was the scheduled hour for the opening, but delegates and alternates were rather slow in reaching the hall and it was nearly half-hour later when Chairman Garfield rapped for order. Business of the day then began with enthusiasm.

Following prayer by the chaplain, Rev. E. L. Rexford of Columbus, committee reports were called for. The committee on credentials reported no contests. This announcement was cheered. The permanent organization committee recommended that the temporary organization of the convention be made permanent, which suggestion was approved by the delegates. **Teddy
In Iowa****Progressive Leader is Greeted by
Immense Crowds.**

Des Moines, Ia., Sept. 5.—That part of Iowa which is stand-pat showed its affection for Colonel Roosevelt. Everywhere he was enthusiastically received. From the time he spoke to 5,000 people at Keokuk until he reached Des Moines, the capital, which turned out as rarely in its history to greet him, Roosevelt's progress was triumphal in its character. The countryside came in wagons, buggies, surreys and motorcars for miles around to cheer the Progressive nominee.

**Ward's Indifference to Be Probed by
Navy Department.**

Washington, Sept. 5.—Rear Admiral Aaron H. Ward, new supervisor of the port of New York, may find himself in an embarrassing position as a result of his refusal to serve on the general board of the navy and his plea of ill health as his reason for not accepting the appointment as naval aid to Secretary of State Knox on the latter's mission to Japan. The navy department, somewhat irritated at these two declinations of assignments upon the part of Admiral Ward, has ordered a medical survey of his case to determine his state of health, with a view to recommending his retirement from active service if he is found physically incapacitated for active duty.

GOVERNOR JOHNSON

Who Addressed the Ohio Progressive Convention Today.

**CLAIMS HE CAN
PRODUCE LIFE****British Professor Makes Statement
at Scientific Gathering.**

Duadee, Sept. 5.—Life can be produced artificially. This statement was the central feature of the address of Professor A. W. Schaefer at the annual meeting of the British Association for the Advancement of Science. The address was a clear and dispassionate one. President Schaefer, who is professor of physiology at Edinburgh university, declared that while he saw reason to doubt the formation of a living substance, he did not hold any hope of prolonging life indefinitely. Some of Professor Schaefer's arresting sentences follow:

"By suitable processes living substance can be produced from inanimate chemical matter."

"We are in no whit justified in assuming that life was established at one period only in the past history of the globe; our life is an aggregate life."

**LONE BANDIT
HOLDS UP
EXPRESS TRAIN
ON THE L. & N.****Is Captured After Boisterous Encounter
With Engineer.**

New Orleans, Sept. 5.—A robber boarded the New York Limited train on the Louisville & Nashville line, robbed the passengers and the mail, engaged in a desperate struggle with Engineer James Baer, was badly wounded and taken prisoner, and is in jail at Bay St. Louis, Miss.

The train is a solid Pullman vestibuled train and carries no express car. There were 75 passengers on board, mostly for eastern cities, including many for New York. The Pullman officials cautioned the passengers and many were able to hide their valuables. The man refused watches, saying he wanted money only. All the valuables were dropped into his grip and were found in it, together with dynamite, nitroglycerin and two revolvers, after the struggle with the engineer.

**Two Charged
With Murder**

East Liverpool, O., Sept. 5.—After having hidden for two days and a night in the woods 10 miles north of here, John Coburn, 21, and Mrs. Mary Burrows, 35, were arrested and brought to this place. They are charged with the murder of Richard Burrows, the woman's husband.

Bud Mars Injured.

Olean, N. Y., Sept. 5.—Bud Mars, the aviator, was badly injured while making an ascent at the Olean fair. His biplane, after rising from the half-mile circular track, suddenly dipped and crashed into the inner fence enclosing the track. The extent of his injuries is not yet known.

EMPIRE STATE PROGRESSIVES HAVE A FIGHT

W. A. PRENDERGAST

Has Fight on Hand in New York Progressive Convention.

**Looks Good
To Wilson****Vermont Result Highly Pleasing to
Democratic Nominee.**

New York, Sept. 5.—Before he left Sea Girt, Governor Wilson was interrogated as to his opinion of the election in Vermont and what it portended for Democratic success at the presidential election in November. He was gratified at the showing that had been made in a rockribbed Republican state.

"The fact that the Democrats more than held their own in Vermont, a Republican state," he said, "and also made substantial gains, means gains throughout the country. The encouraging thing about it is that the Democrats did not lose any votes to the new party. Their gains were made apparently at the expense of the Republican party."

Bourne For Roosevelt.

Washington, Sept. 5.—Jonathan Bourne, progressive Republican senator from Oregon, issued a statement declaring he will support Colonel Roosevelt for president.

How to Begin.

"What is the first step toward remedying the discontent of the masses?" "The first step," replied the energetic campaigner, "is to get out and make speeches to prove to them how discontented they are."—Washington Star.

**Religion Enters into New York
Progressive Gathering.****PRENDERGAST HAS OPPOSITION**

Friends of New York Comptroller Say That William A. Hotchkiss Started Story of Trouble in Charity Bureau With View to Increasing Own Gubernatorial Chances—Result in Vermont Has Had Effect of Bringing Out New Candidates.

Syracuse, N. Y., Sept. 5.—All of the harmony fat has been flung into the fire by the Progressives and the leaders are now engaged in a real downright old-fashioned scrimmage over candidates for governor. The first session of the convention to nominate a special state ticket and electors was called to order in the Arena this morning. The nominations will not be made before tomorrow, and not a few believe that the convention may run over to Saturday. This delay, if it happens, will be due to wide-open discussions concerning the platform and the rumpus which developed over the candidate for governor. Most of the criticism is directed against William H. Hotchkiss, chairman of the provisional state committee, and slated to be chairman of the permanent state committee.

All of this friction came out when it was learned that opposition had been developed to the nomination for governor of Comptroller William A. Prendergast, and that this antagonism was founded on religious lines because of Mr. Prendergast's conduct of the charity bureau in the New York city comptroller's office. It has been believed all along and it was announced at the Progressive national convention in Chicago that all these differences had been healed to the satisfaction of the men and women of Mr. Prendergast's religious faith. But up pops the statement from well informed Progressive leaders that his nomination would be hazardous in view of an opposition over these charity matters which had not been smoothed over.

Blame Hotchkiss.

It is claimed here that the bringing up of this matter was inspired by Mr. Hotchkiss' friends with a view to "double crossing" Mr. Prendergast in the interest of Mr. Hotchkiss, and that Mr. Hotchkiss is really a candidate for governor, although protesting at all hours of the day and night that he is not.

Garford Nominated By "Bull Moosers"

**Bull Moosers Make Selection
By Acclamation.**

BIG DEMONSTRATION FOLLOWS

Nominee Discusses the Issues in His
Speech of Acceptance, Declaring
the Republican Party is Passing
into Oblivion and That the Demo-
cratic Party's End is in Sight—Pre-
nounces Roosevelt the Greatest Cit-
izen of His Generation.

Memorial Hall, Columbus, Sept. 5.—
Arthur L. Garford, manufacturer, of
Elyria, O., was today selected as the
standard-bearer of the new Progres-
sive party of Ohio. His nomination
for governor was by acclamation. A
great demonstration followed, the
several thousand delegates and spec-
tators making the big hall ring with
cheers, shoutings and songs.

E. E. Shorsline of Steubenville, who
was endorsed for governor by the
Sixteenth district caucus, made pos-
sible the nomination of Mr. Garford
by acclamation by deciding to be-
come a candidate for judge of the
supreme court.

Introduced to the convention by
Chairman Garfield, Mr. Garford deliv-
ered his speech of acceptance, in
which he said:

Fellow Progressives: I am profoundly
grateful for this signal honor, far beyond
my deserving, that comes to me at the
hands of this, the greatest party con-
vention ever assembled in the political
annals of Ohio.

But a few weeks since many of us sat
in this same auditorium fighting the last
feeling fight of a party we had loved and
served a lifetime. We fought hopelessly,
for the forces of reaction and evil were
fronting us in a solid phalanx, but we
fought to the last ditch, hoping against
hope that the Republican party might
yet be saved for continued service to the
nation.

We had been proud of that party. Its
creed was our creed. Its aims our aims.
We knew it had fallen into evil hands—
that its glorious record of achievement
had been tarnished by its latter day lead-
ers—but we hoped to wrest it from the
soiled hands that were shaping its pol-
itics and destiny, and strove to turn it
again to the honest service of the people.
But it is not necessary for me to recite
again the bitterness of the struggle be-
tween corrupt political practices and the
patriotic effort of the rank and file of
that once splendid organization. You and
I were helpless before the brutal strength
of big business and big politics.

The worst elements in our national life
were dominant in that convention and
were dictating the terms of compromise.
For American citizens, free born sons of
the great state of Ohio, there was but
one answer—and through the banner of
the Progressive party of Ohio, which we
here unfurl today, we give them their
answer.

The Republican party is rapidly passing
into oblivion. After sixty years of ser-
vice it is going to its death, not at our
hands, but at the hands of men who have
prostituted it to selfish ends and wicked
purposes. Shorn of all pretence, deserted

**Religion Enters Into New York
Progressive Gathering.**

PRENDERGAST HAS OPPOSITION

Friends of New York Comptroller
Say That William A. Hotchkiss
Started Story of Trouble in Charity
Bureau With View to Increasing
Own Gubernatorial Chances—Re-
sult in Vermont Has Had Effect of
Bringing Out New Candidates.

Syracuse, N. Y., Sept. 5.—All of the
harmony that has been sung into the
fire by the Progressives and the lead-
ers are now engaged in a real down-
right old-fashioned scrimmage over
candidates for governor. The first
session of the convention to nomi-
nate a special state ticket and elec-
tors was called to order in the
Arena this morning. The nomi-
nations will not be made before tomor-
row, and not a few believe that the
convention may run over to Satur-
day. This delay, if it happens, will
be due to wide-open discussions
concerning the platform and the rumpus
which developed over the candidate
for governor. Most of the criticism
is directed against William H. Hotch-
kiss, chairman of the provisional
state committee, and slated to be
chairman of the permanent state
committee.

All of this friction came out when
it was learned that opposition had
been developed to the nomination for
governor of Comptroller William A.
Prendergast, and that this antago-
nism was founded on religious lines
because of Mr. Prendergast's conduct
of the charity bureau in the New
York city comptroller's office. It has
been believed all along and it was
announced at the Progressive nation-
al convention in Chicago that all
these differences had been healed to
the satisfaction of the men and wom-
en of Mr. Prendergast's religious
faith. But up pops the statement
from well informed Progressive lead-
ers that his nomination would be
hazardous in view of an opposition
over these charity matters which
had not been smoothed over.

Blame Hotchkiss.

It is claimed here that the bring-
ing up of this matter was inspired
by Mr. Hotchkiss' friends with a view
to "double crossing" Mr. Prendergast
in the interest of Mr. Hotchkiss, and
that Mr. Hotchkiss is really a candi-
date for governor, although protest-
ing at all hours of the day and night
that he is not.

WELCOME THE NEW.

The people of Ohio have expressed their desires on the subject of changing the good old constitution of the state which has been our proven and all sufficient mooring in the years that have passed.

The grand old document, with a few amendments, which might be classed really as supplementary provisions because of the fact that they were added to meet conditions which had arisen subsequently to the framing and adoption of the constitution, has held the old ship of state safe at her anchor through many a tempest of hard times and through many crusades for radical changes.

The election was a surprise to many who from real sentiment or from selfish motives, expressed a deep reverence for the constitution and expressed belief that it was sufficient to meet the changed conditions which all admit now exist.

No one individual should, however, permit himself or herself to become too much exercised over the changes which the people have ordered.

The constitution belongs to the whole people, and it is theirs to amend, to abolish or to deal with in any manner they see fit.

Perhaps the people have made a mistake in certain particulars and perhaps they have done exactly the proper thing. Time only can settle that argument and as the final decree has been entered and the final record made we can only await results and hope and believe that the changes are for the best.

It is a serious matter to change the fundamental law of the state and nation it is said and truthfully too. But it is also a serious matter to be tied to an instrument which has outlived its usefulness and retards rather than promotes real progress.

As the years come along, each one in its proper order, bearing, each one, its added burden and its new conditions, we must not permit that feeling of reverence, for the old and distrust of the new, which undeniably comes with years, to control our action to the detriment of those who are starting on the long road under vastly changed conditions from those which obtained years ago.

There has been a growing demand for more power in the people—to take one step nearer the pure democracy and one step away from the representative democracy.

Whether we are ready now to take as long a stride forward is the the question about which men may argue, but time only can settle.

The patriotic people of Ohio cannot wish for the new constitution a happier fate than that it will serve as long, serve as faithfully and be found as sufficient to the varying needs of an advancing, prosperous and ambitious people as the old constitution has proven itself.

REALIZATION

England's Danger In American War

London, Sept. 2.—"Norman Anger (Norman Anger Lane), the author and newspaper correspondent, who has been the general manager of the Daily Mail in Paris since 1905, contributes to that paper an article on the Panama canal law, entitled "Why Not Fight?"

He starts out by suggesting hypothetically a series of offenses committed by Germany against England, which, he says, would give an Anglo-German war infinitely greater justification than most of the wars of history, and would, indeed, make war inevitable.

These offenses are intended as exact parallels of what the English regard as American offenses against England in the past ten years and whose logical methods of settlement would be by war.

"But," says Mr. Lane, "we have not gone to war, we shall not go to war; we are not even thinking of war. The reason is because war would be ineffective. We could not impose our will by war. We could, it is true, destroy her navy, bombard her ports and blockade her coasts but we should thereby create a position far more serious for ourselves than for her. She would be embarrassed; we should starve."

Madison Mills

Road building has been the chief occupation for the past week.

Quite a good deal of baled hay and straw is being loaded at this place for the Cincinnati market.

Messrs. E. Thompson, E. A. Parrett shipped four loads of cattle last week.

Camp meeting closed Sunday night those in charge returning to Columbus.

Mr. Harry Long visited Clyde Parrett Monday and Tuesday of this week.

Messrs. T. E. Brown, Col. M. W. Eckle and Floyd Hornbeck went to Detroit Saturday, returning Sunday in a Chalmers car, purchased by Mr. Brown.

Mrs. Elizabeth Crowe is reported to be improving slightly.

Misses Myrtle Ennsley and Mary Thompson are reported on the sick list.

Mr. and Mrs. B. F. Hughes left Tuesday for an extended visit at Mr. Hughes' old home in West Virginia.

Herman Barclay is spending a few days at home.

Mr. and Mrs. J. F. Warner, of Panama, are expected to arrive in Ohio within the next few days for a visit, returning in the fall to the

Robert Redding left Wednesday for a few days' visit in Dayton where he expects to locate for the fall and winter.

John M. Tobin returned from Indiana last week, expecting to spend a few weeks visiting friends and relatives and return in the fall to Michigantown, Ind.

Mr. J. E. Hopkins made a flying trip to Chillicothe one day this week to see W. E. Cook, of Crewe, Va., who is at Chillicothe taking treatment.

Mr. and Mrs. Frank Liston moved from the E. A. Parrett farm last week. Mr. Liston has rented a farm and expects to engage extensively in farming the next year.

The school will open next Monday.

Chas. Hughes spent Sunday at home.

YOUR GREAT GRANDMOTHER MADE SOAP.

She would fill a barrel with wood ashes, let rain water seep through them to make lye, and then have soap boiling day, using all the bacon rinds and scraps of fat meat and grease she had saved. She made soft soap. Nowadays women don't have to ruin their tempers and their health and their looks making soap, or toiling all day over the washing. Easy Task soap—a pure, white laundry soap made of clean tallow, coconut oil, borax and naphtha does the hard half of the work in the laundry and everywhere else in the house that a safe and sure cleaner is needed.

The Mystery of a Shoe

Bring this Advertisement to Our Store.

Before wearing a shoe you judge it only by its appearance and by what the clerk tells you about it. You can't see what is hidden by the inside lining and the outside finish.

A vast number of the shoes made today have heels, counters and insoles made of imitation leather. Convict labor makes eight million pairs, many containing low grade leather or leather substitutes.

But you can always be sure you are getting honest shoes by demanding "Star Brand" shoes with our well-known Star on the heel.

Here is a "Star Brand" shoe—cut up—to show HOW it is made and WHY it outwears other shoes sold at the same price. It is one of "Our Family" line made in several styles for all the family.

The "Our Family" shoe has sole leather counters and soles. Every piece in the heels of sole leather. The upper is of high grade box calf leather, specially tanned for comfort and service.

BRING THIS ADVERTISEMENT next time you come to our store and ask to see the cut shoe. Examine it carefully. Then cut up an old shoe made by somebody else and sold for the same

money. You'll then know why "Star Brand Shoes Are Better."

You can cut up any "Star Brand" shoe from the finest to the lowest in price and you will find every pair honestly made of good leather.

"Star Brand" shoes are made in over 700 styles in our own modern factories. Always ask for and insist upon having "Star Brand" shoes. The Star on the heel insures good leather shoes and legitimate values.

You can get the "Our Family" shoe for men, boys and youths at \$2.00 to \$3.00. You can get the "Our Family" shoe for women, misses and children at \$1.35 to \$2.50.

For the price you'll find the "Our Family" the best every day shoe you have ever worn.

If your dealer doesn't sell them, it will pay you to change dealers. Don't let any dealer sell you something else. Come to us for "Our Family" and other "Star Brand Shoes."

WELCOME THE NEW.

The people of Ohio have expressed their desires on the subject of changing the good old constitution of the state which has been our proven and all sufficient mooring in the years that have passed.

The grand old document, with a few amendments, which might be classed really as supplementary provisions because of the fact that they were added to meet conditions which had arisen subsequently to the framing and adoption of the constitution, has held the old ship of state safe at her anchor through many a tempest of hard times and through many crusades for radical changes.

The election was a surprise to many who from real sentiment or from selfish motives, expressed a deep reverence for the constitution and expressed belief that it was sufficient to meet the changed conditions which all admit now exist.

No one individual should, however, permit himself or herself to become too much exercised over the changes which the people have ordered.

The constitution belongs to the whole people, and it is theirs to amend, to abolish or to deal with in any manner they see fit.

Perhaps the people have made a mistake in certain particulars and perhaps they have done exactly the proper thing. Time only can settle that argument and as the final decree has been entered and the final record made we can only await results and hope and believe that the changes are for the best.

It is a serious matter to change the fundamental law of the state and nation it is said and truthfully too. But it is also a serious matter to be tied to an instrument which has outlived its usefulness and retards rather than promotes real progress.

As the years come along, each one in its proper order, bearing, each one, its added burden and its new conditions, we must not permit that feeling of reverence, for the old and distrust of the new, which undeniably comes with years, to control our action to the detriment of those who are starting on the long road under vastly changed conditions from those which obtained years ago.

There has been a growing demand for more power in the people—to take one step nearer the pure democracy and one step away from the representative democracy.

Whether we are ready now to take as long a stride forward is the question about which men may argue, but time only can settle.

The patriotic people of Ohio cannot wish for the new constitution a happier fate than that it will serve as long, serve as faithfully and be found as sufficient to the varying needs of an advancing, prosperous and ambitious people as the old constitution has proven itself.

Common Sense

Is Biggest

Factor In Pro-

curing Happiness

During

Married Life

By Mrs. JULIAN HEATH,

President of the Housewives'

League of New York

WHY IS A HAPPY MARRIAGE?

That something besides LOVE is necessary we have agreed, and this something is not WEALTH, but the FACULTY OF MAKING WEALTH OUT OF LITTLE. It is the ECONOMIC WISDOM, the most UNCOMMON "COMMON SENSE," which so skillfully apportions a moderate income that the results are COMFORT and a continued state of WELL BEING.

THE FOUNDATION FOR THE HAPPY MARRIAGE MUST BE LAID DURING THE ENGAGEMENT PERIOD, AND IT MUST BE LAID DEEP AND STRONG. NOBODY WANTS TO DO AWAY WITH THE MOON-LIT RAPTURES OF THIS DELIGHTFUL TIME. ONLY I SUGGEST THAT THE YOUNG PEOPLE MIX IN A LITTLE COMMON SENSE. INSTEAD OF SPENDING ALL THEIR EVENINGS IN THE CANOE ON THE RIVER LET THEM SOMETIMES SIT AT THE LIBRARY TABLE, UNDER THE GREEN SHADY LIGHT AND DO SOME GOOD HARD MATHEMATICS.

It isn't enough for the young wife to be a GOOD HOUSEKEEPER; she must be a WISE SPENDER. Her husband brings home the money. It's her job to send it out again as wisely as possible. She won't find many helpers, and she will find tempter tradesmen at every turn.

Rates Fixed for Sending Parcels Post Packages

The new parcels post law, which goes into effect Jan. 1, 1913 makes sweeping changes in the regulations which prevail at the present. For the information of the people generally Senator Bourne, chairman of the senate committee on postoffices and postroads, has sent out the following summary of the new law:

Any article is mailable by the parcels post if not over 11 pounds in weight nor more than 72 inches in length and girth combined, and not likely to injure the mails, the postal equipment or the mail handlers.

There is a flat rate of 1 cent per ounce up to 4 ounces, regardless of distance.

Above 4 ounces rates are by the pound or fraction thereof and they vary with the distance as follows:

Rural route and city delivery: First pound, 5 cents; each additional pound 1 cent; 11 pounds 15 cents.

Fifty-mile zone: First pound, 5 cents; each additional pound, 3 cents 11 pounds 35 cents.

One hundred and fifty mile zone: First pound, 6 cents; each additional pound, 4 cents; 11 pounds, 46 cents.

Three hundred-mile zone: First pound, 7 cents; each additional pound 5 cents; 11 pounds, 57 cents.

Six-hundred mile zone: First pound, 8 cents; each additional pound, 6 cents; 11 pounds 68 cents.

One-thousand mile zone: First pound 9 cents; each additional pound 7 cents; 11 pounds, 79 cents.

One thousand four hundred mile zone: First pound, 10 cents; each additional pound, 9 cents; 11 pounds \$1.

One thousand eight hundred mile zone: First pound, 11 cents; each additional pound 10 cents; 11 pounds \$1.11.

Over one thousand eight hundred miles: First pound 12 cents; each additional pound 12 cents; 11 pounds, \$1.32.

The postmaster general is given authority to make provisions for indemnity insurance and collection on delivery, with additional charges for such service. With the consent of the interstate commerce commission, after investigation, he may also modify rates, weights and zone distances when it has been shown by experience that there is need for such action.

Garford Nominated

(Continued from Page One.)

It is the rank and file, it stands today discredited as a great political party, an open enemy of human progress and an unmasked champion of predatory politics and predatory wealth.

Temporarily its traditional enemy, the Democratic party, clings to a semblance of decency. For a day it wears the veneer of progressive principles and hides behind the veil of utilitarian promises and faithless pledges. But it, too, will soon be stripped of its disguise.

The traditions of Democracy are Bourbon traditions. The party is naturally and normally a party of reactionary tendencies. Its real leaders, the men who sit secretly in the high places, are of the same type and the same stripe as those who have strangled the Republican party; and ultimately, as surely as the sun rises and sets, the reactionary elements of the two old parties will make common cause under one flag against their common enemy—human progress.

In this epoch of swift social development upon which we are entering there can be but two great parties in the United States. One the party of progress; the other the party of resistance. Just how this party of reaction is to work out its will and its wickedness we do not know. But we do know the splendid aims and inevitable destiny of the great Progressive party to which we are today pledging our lives, our honor and our strength. We do know that the principles of plain and eternal justice upon which our party is builded must prevail.

We know, also, that the day of exploitation and corruption and thievery in high places must end if the republic is to live. We know that men—all men—must be equal before the law and under one flag, with equal opportunity for themselves and equal responsibilities to their fellowmen. And we know that the party in whose name we go forth to battle today is the one party—the only party—dedicated in all faith and sincerity to the cause of exact justice to all.

Of the personal sacrifices that the acceptance of this nomination entails I shall say no word. Such as they may be, they are made freely and gladly. No greater honor may come to a man than the privilege to serve his fellowmen, and service in this great progressive movement is a privilege for which you, and I, and all of us, must be deeply grateful. From this hour we are going forward with high purpose and to great victory. Our party, born of the country's great needs, dedicated in unselfishness and real patriotism to the service of the whole people, begins today to write a cleaner and nobler national history.

With Theodore Roosevelt—greatest citizen of his generation—to lead us, and with that splendid champion of civic righteousness who comes to us from the Golden Gate, fresh from victory, to share in our national leadership, our pathway lies bright with promise straight ahead.

It shall be my dearest hope, my friends, that I shall be able in some small measure to deserve the confidence you have shown in me and the great honor you have bestowed upon me today.

Water in bluing is adulteration. Glass and water make liquid blue costly. Buy Red Cross Ball Blue, makes clothes whiter than snow.

Grown-ups don't often realize how particular the youngsters are about the "looks" of a hat—a coat—or a pair of shoes.

Just comfort and easy wear isn't enough.

The beauty of Selz shoes for young feet is that they not only wear well but have good style, too. They have just the easy comfort that your children must have in the shoes they run and play in; and there is a style to them—a swing—that will please the youngsters.

Get a pair of these good looking Selz shoes for your boy or your girl.

THE REAL FATE OF GOOD ROADS CLAUSE SEEMS IN DOUBT

Result Will Depend on Official
Count Next Week.

Columbus, O., Sept. 5. — With unofficial returns on nine proposals in from only 2,569 precincts out of 5,197 in the state, and little hopes of receiving definite further figures until the official vote is canvassed by the secretary of state next week, indications are that equal suffrage was the only one of the 42 amendments proposed for the new constitution, except perhaps the good roads clause, which has been defeated. The roads proposal is very much in doubt.

The vote in the rural precincts, though light, was slow in coming in, and county election boards have been greatly hampered for this reason in

making up their summaries.

Proposals providing for the abolition of capital punishment and builders' and mechanics' liens are reported as being in doubt, but no comprehensive figures regarding them have been received.

All the proposals, excepting the ones which have been noted as being lost or in doubt, probably have carried by majorities ranging from 25,000 to 200,000.

Home rule for cities proved to be one of the most popular amendments, not only in the larger cities, but also in most of the smaller ones. Some of the smaller counties rolled up handsome majorities for the measure, while others swatted it unmercifully. Its ratification is thought assured by approximately 125,000 majority.

While the initiative and referendum probably has been ratified by

100,000 majority, it received most of its support from the large cities and counties, where majorities ran as high as 3 to 1. Most of the smaller counties rejected it by majorities ranging from 2 to 1 to a very slight margin. Out of one-fourth of the counties from which complete or partial returns have been received 30 probably rejected the measure.

Liquor license, though being ratified by more than 125,000, received a much smaller vote than any of the other proposals. The vote favoring license will be about 2 to 1. The proposal carried with large majorities in all the large cities and counties and a majority of the smaller counties will give it a handsome majority. Out of 66 counties from which returns have been received all excepting 25 gave majorities favoring the amendment.

Those counties which probably have rejected the I. and R. are Champaign, Greene, Huron, Madison, Noble, Scioto, Shelby, Washington, Allen, Ashtabula, Auglaize, Belmont, Clinton, Darke, Delaware, Fairfield, Fayette, Guernsey, Hancock, Henry, Hocking, Knox, Marion, Miami, Muskingum, Pickaway, Richland, Union, Warren and Wyandot.

Mrs. Lewis Moats of North St. is the guest of Springfield friends this week.

Parcels Post Packages

The new parcels post law, which goes into effect Jan. 1, 1913 makes sweeping changes in the regulations which prevail at the present. For the information of the people generally Senator Bourne, chairman of the senate committee on postoffices and postroads, has sent out the following summary of the new law:

Any article is mailable by the parcels post if not over 11 pounds in weight nor more than 72 inches in length and girth combined, and not likely to injure the mails, the postal equipment or the mail handlers.

There is a flat rate of 1 cent per ounce up to 4 ounces, regardless of distance.

Above 4 ounces rates are by the pound or fraction thereof and they vary with the distance as follows:

Rural route and city delivery: First pound, 5 cents; each additional pound 1 cent; 11 pounds 15 cents.

Fifty-mile zone: First pound, 5 cents; each additional pound, 3 cents 11 pounds 35 cents.

One hundred and fifty mile zone: First pound, 6 cents; each additional pound, 4 cents; 11 pounds, 46 cents.

Three hundred-mile zone: First pound, 7 cents; each additional pound 5 cents; 11 pounds, 57 cents.

Six-hundred mile zone: First pound, 8 cents; each additional pound, 6 cents; 11 pounds 68 cents.

One-thousand mile zone: First pound 9 cents; each additional pound 7 cents; 11 pounds, 79 cents.

One thousand four hundred mile zone: First pound, 10 cents; each additional pound, 9 cents; 11 pounds \$1.

One thousand eight hundred mile zone: First pound, 11 cents; each additional pound 10 cents; 11 pounds \$1.11.

Over one thousand eight hundred miles: First pound 12 cents; each additional pound 12 cents; 11 pounds, \$1.32.

The postmaster general is given authority to make provisions for indemnity insurance and collection on delivery, with additional charges for such service. With the consent of the interstate commerce commission, after investigation, he may also modify rates, weights and zone distances when it has been shown by experience that there is need for such action.

Garford Nominated

(Continued from Page One.)

by the rank and file, it stands today discredited as a great political party, an open enemy of human progress and an unmasked champion of predatory politics and predatory wealth.

Temporarily its traditional enemy, the Democratic party, clings to a semblance of decency. For a day it wears the vaneer of progressive principles and hides behind the veil of utilitarian promises and faithless pledges. But it, too, will soon be stripped of its disguise.

The traditions of Democracy are Bourbon traditions. The party is naturally and normally a party of reactionary tendencies. Its real leaders, the men who sit secretly in the high places, are of the same type and the same stripe as those who have strangled the Republican party; and ultimately, as surely as the sun rises and sets, the reactionary elements of the two old parties will make common cause under one flag against their common enemy—human progress.

In this epoch of swift social development upon which we are entering there can be but two great parties in the United States. One the party of progress; the other the party of reaction. Just how this party of reaction is to work out its will and its wickedness we do not know. But we do know the splendid aims and inevitable destiny of the great Progressive party to which we are today pledging our lives, our honor and our strength. We do know that the principles of plain and eternal justice upon which our party is built must prevail.

We know, also, that the day of exploitation and corruption and thievery in high places must end if the republic is to live. We know that men—all men—must be equal before the law and under one flag, with equal opportunity for themselves and equal responsibilities to their fellowmen. And we know that the party in whose name we go forth to battle today is the one party—the only party—dedicated in all faith and sincerity to the cause of exact justice to all.

Of the personal sacrifices that the acceptance of this nomination entails I shall say no word. Such as they may be, they are made freely and gladly. No greater honor may come to a man than the privilege to serve his fellowmen, and service in this great progressive movement is a privilege for which you, and I, and all of us, must be deeply grateful.

From this hour we are going forward with high purpose and to great victory. Our party, born of the country's great needs, dedicated to unselfishness and real patriotism to the service of the whole people, begins today to write a cleaner and nobler national history.

With Theodore Roosevelt—greatest citizen of his generation—to lead us, and with that splendid champion of civic righteousness who comes to us from the Golden Gate, fresh from victory, to share in our national leadership, our pathway lies bright with promise straight ahead.

It shall be my dearest hope, my friends, that I shall be able in some small measure to deserve the confidence you have shown in me and the great honor you have bestowed upon me today.

Water in bluing is adulteration. Glass and water make liquid blue costly. Buy Red Cross Ball Blue, makes clothes whiter than snow.

HOW WASHINGTON LOST A \$75,000 ENTERPRISE

U. S. Brass Works Go to Marysville, Where a Bunch of Hustlers Get Busy and Carry Off Prize.

**ANOTHER BIG INDUSTRY
KNOCKS FOR ADMISSION**

**Marysville Business Men's Club
a Live One, Sends Committee
to Upper Sandusky, Winding
Up Deal in Whirlwind Manner.
Factory Starts With 60 Men,
and Company Is Capitalized at
\$75,000.**

The story of how Washington has just lost another valuable industry which sought to locate here, and how opportunity does not long go begging, comes to the front with the announcement that the U. S. Brass works, of Upper Sandusky, has been secured by Marysville, a town of less than 4000, located on two railroads in Union county.

It will be recalled that Mr. J. B. Couture, general manager of the plant, visited this city upon two or three occasions, seeking encouragement to locate here, but his reception, while cordial, had very little business about it, until his last visit some two weeks ago, when arrangements were made to send a committee to investigate his proposition, but this could not be done at once, leaving the way open for a number of hustlers from Marysville, where a proposal similar to the one made here, had been tendered, and the Marysville committee closed up the deal in whirlwind order, first making a thorough investigation and finding that Mr. Couture's representations had been very conservative.

The committee from the Marysville Business Men's Club visited Upper Sandusky and went over the plant, examined the books, interviewed the bankers, looked up persons who had purchased the goods, and after obtaining all the information possible, returned to Marysville, where four meetings of the Business Men's club were held in as many nights, and at the final meeting Mr. W. V. Smith, of Columbus, secretary of the concern, and Mr. J. B. Couture were present and the deal was closed. At the first meeting of the club, 51 out of 53 members were present, indicating the enthusiasm which exists there.

The factory site was donated, the guarantee fund subscribed, and everything done so that within a short time the plant will start up with 60 high-priced men. The company was capitalized at \$75,000.

Had Washington shown half of the enterprise that Marysville has, the factory would have come here and many local men would unquestionably, been made independently wealthy within the next few years.

As a sequel to the loss of the factory to Washington, Messrs. Smith and Couture paid a short visit to this city Wednesday evening, to extend thanks for the consideration shown them here by a number of citizens, and to explain why the local committee had been notified not to make the investigation until further notification was received. This was done a few days after the two gentlemen left here some two weeks ago.

While here they mentioned another big enterprise which is seeking a location and expressed the belief that if the matter is taken up with a Mr. I. V. McLean, of Upper Sandusky,

he can be interested in coming here, providing immediate action is taken.

A communication has been forwarded to Mr. McLean with the hope that it is not too late to bring him here to explain his proposition.

"Outside of our proposition the McLean industry is the best I ever saw," said Mr. Couture in speaking of the affair.

THE MEN WHO SUCCEED

As heads of large enterprises are men of great energy. Success, today, demands health. To all is to fail. It's utter folly for a man to endure a weak, run-down, half alive condition when Electric Bitters will put him right on his feet in short order. "Four bottles did me more real good than any other medicine I ever took," writes Chas. B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver trouble, stomach disorders and deranged kidneys, I am again, thanks to Electric Bitters, sound and well." Try them. Only 50 cents at Blackmer & Tanquary.

Entire Family Have Close Call

Wednesday afternoon while Rev. A. L. Vandegriff and family of New Holland, were coming to this city, and while on the Circleville pike near the residence of Isaac Price, their horse took fright at a traction engine, and overturned the rig, throwing the occupants into the ditch but not seriously injuring them.

Rev. Vandegriff was thrown in such a manner that his feet became entangled in a wire fence, and he was held down by the overturned rig. The horse, usually a very gentle animal, made a lunge after overturning the rig, pulling it off of Rev. Vandegriff.

"The horse was badly injured and one shaft of the buggy broken. Through the assistance of the machine men and nearby residents, he was able to get back to New Holland.

Issues Challenge To Local Athletes

Mr. Walter Quitman, of Cincinnati, has issued a challenge to all local athletes, for chest expansion, breaking chains across his chest that are said to hold 2,000 pounds pressure.

He will be found at the Brown Drug store, where he is giving exhibitions.

FIRE PROOF HOTEL AND BUSINESS BLOCK

Mr. R. C. Hunt has changed his plans of erecting a big apartment hotel on the site of the Imperial hotel destroyed by fire December 30, and will build a strictly modern fire-proof hotel, and a business block three stories in height, the business block being between the hotel proper and the Dahl-Millikan building.

Mr. Hunt changed his plans after careful consideration, and will push the work of building the business block, completing it this fall and winter, while the foundation of the

hotel will be the only portion constructed this fall, and early next spring it will be rushed to completion.

Both the business block and the hotel will be handsome structures, and when the hotel is erected, will be one solid block, and modern in detail. The entire building will be fire-proof.

Mr. Hunt has one of the best hotel men in the state who wishes to take charge of the new hotel as soon as it is ready to open.

UNCLE SAM HAS TONS OF GOLD IN COFFERS

Uncle Sam is not greatly worried over the question of where the next meal is to come from, in spite of all the storm and stress of politics and the usual pre-election talk of empty dinner pails, long bread lines and similar troubles and calamities. This is clearly indicated by a brief study of the Treasury figures. They show the government to be in a flourishing condition with the wolf so far removed from the door that there is little need for anxiety over how to get along through the winter, even if a billion-dollar Congress has just got through and another one will be here the beginning of December.

The Treasury Department has in its vaults at this time gold coin and bullion to the value that breaks all records. Not only is more gold treasure amassed in the Treasury Department than this country has ever before had, but nothing in the records of foreign nations can approach it. The total now is about double the total gold coin and bullion possessed by any foreign country. Moreover, one might go back through the financial history of the world to the beginnings of history and fail to find another store of gold such as this. Old Croesus himself never dreamed of anything like it.

Amount of Gold Coin.

At the end of August, this year the total gold coin and bullion in the Treasury amounted to a little less than a billion and a quarter dollars in value. The exact amount in round numbers was \$1,221,000,000. Over a billion of this is gold coin. Of this staggering amount \$1,048,000,000 is held for the redemption of outstanding gold certificates. The sum of \$150,000,000 is in the reserve fund and is held for the redemption of United States notes and Treasury notes. The enormous sum of \$22,000,000 in gold coin is held in the general fund of the Treasury.

But vast as is the amount of gold coin and bullion in the Treasury, it is only a fraction of the entire wealth of money in the United States. Statistics show that July 1, 1912, the amount of United States money of all kinds in circulation was \$3,276,-

786,613. This gives, according to the estimates of the Treasury, a per capita circulation of \$34.26.

In other words, every man, woman and child in the country is entitled to \$34.26 on this basis. Some have this and more; others do not have their quota. The Treasury estimates per capita circulation are based on a supposed population of 95,636,000 in continental United States.

Gain in Two Months.

Custom receipts for August and July, the first two months of the present fiscal year, ran \$4,000,000 each above the figures for the same two months of 1911. Ordinary internal revenue taxes were an increase of \$3,000,000 for the two months' period this year over last year.

Aside from the Panama canal and the public debt the excess of ordinary disbursements over receipts was approximately \$16,000,000 less than for the corresponding two months last year, largely attributed to the holding up of the appropriation bills in the closing weeks of Congress.

The public debt was diminished during August by \$689,542.

During August 15 national banks with a capital of \$495,000,000, were authorized to begin business, making a total of 10,250 national banks organized up to last Saturday.

The United States Mint during August coined \$505,000 in gold, \$586,000 in silver and \$226,000 in one-cent pieces.

The Killing Of. Conversation

In the September American Magazine, Ida M. Tarbell writes:

"One of the most disastrous effects of preoccupation with the things and the labors of the household is the killing of conversation. There is perhaps no more general weakness in the average American family than glumness! The silent newspaper-reading father, the worried watchful mother, the surly boy, the fretful girl, these are characters typical in both town and country.

In one of Mrs. Daskam Bacon's lively tales, "Ardelia in Arcadia," the little heroine is transplanted from a lively, chattering, sweltering New York street to the maddening silence of an overworked farmer's table. After standing it as long as she can she cries out, 'For Gawd's sake, talk!'

"One secret of attraction of the city over the country or small town for the young is contact with those who talk. They are conscious of a freedom they have never known—the freedom to say what rises to the lips. They experience the unknown joy of play of mind. According to their teaching the tongue and mind are to be used only when needed for serious service; to keep them active to allow them to perform whatever nimble feats their owners fancy—this is a revelation!

"Free family talk is sometimes ruined by a mistaken effort to direct it according to some artificial notions of what conversation means. Conversation means free giving of what is uppermost in the mind. The more spontaneous it is the more interesting and genuine it is. It is this freedom which gives to the talk of the child its surprise and often its startling power to set one thinking. Holding talk to some severe standard of consistency, dignity or subject is sure to stiffen and hamper it. There could have been nothing very free or joyful about talking according to a program as the ladies of the eighteenth century salons were more or less inclined. Good conversation runs like water, nothing is foreign in it. 'Farming is such an uninteresting subject,' I heard a critical young woman say to her husband whose tastes were bucolic. The young woman did not realize that one of the masterpieces of the greatest of the world's writers was on farming—most practical farming, too! That which relates to the life or each, interests each, concerns each—that is the material for conversation, if it is to be enjoyable or productive."

Canning Plant Employees Strike

A genuine strike, of some five minutes' duration, occurred at the Fayette Canning plant Wednesday, but prompt action upon the part of the management, in discharging some of the agitators, put a quietus to the affair in short order.

The trouble occurred in the husking sheds, where some 60 persons were employed, and was due to some few urging the others to demand an additional cent per bushel for husking the corn. Within a short time practically the entire husking force had joined in the demand, but when some half dozen were discharged, the others returned to their work, some five minutes only being lost.

The big plant is now taking in over 100 loads of sweet corn each day.

WHAT WE NEVER FORGET

according to science, are the things associated with our early home life, such as Bucklen's Arnica Salve, that mother or grandmother used to cure our burns, boils, scalds, sores, skin eruptions, cuts, sprains or bruises. Forty years of cures prove its merit. Unrivalled for piles, corns or cold-sores. Only 25 cents at Blackmer & Tanquary.

THE OLD RELIABLE STILL IN THE LEAD

Oranges, nice, sweet, juicy Valencia oranges, the kind that give satisfaction, 5c apiece, 50c per dozen. Nice ripe peaches, fresh vegetables of all kinds. Lima beans 15c per quart. Sour and sweet pickles in quart Mason cans, 15c per can. Fresh cakes and crackers of all kinds. See us we are your friends. See us. We are your friends.

THREE TONS OF MONEY

**The Dice of God Are Always Loaded.
State Fair Sets New High
Water Mark**

The world applauds the winner and the record-breaker. The State Fair is both. By leaps and bounds it grows. In popularity it gains. In quantity and quality of exhibits it surpasses all predecessors. The present grounds are no longer adequate. Over 500 cars were used in bringing exhibits. The president and the private citizen touched elbows within its gates.

Over 6,000 pounds of silver were paid in admissions. Receipts from all sources total \$20,000 more than ever before. Good humor prevailed. Everybody was satisfied. The man in the moon worked nights. Every department was complete. The vast crowds were orderly. Every officer

was on duty at proper time and place. Unpleasant incidents did not happen. Words of praise were heard on every side. The State Fair advertising brought larger crowds to Columbus than ever before. There was no confusion. The Fair started on time. Every detail of the program was kept to the minute. Doing away with the free-pass curse has won respect and support. An increase of over 20 per cent, in both attendance and exhibits is the story. Demands for exhibit space next year have already been made. This is a new indication of the growth and success of Ohio's Big Exposition. Thanks.

IN SOCIETY

Mrs. Frank M. Bradley and Miss Dora Hays were hostesses at a summer "Bridge" of exceptional pleasure Wednesday afternoon.

Eight tables of society women were at play in the popular game, Mrs. D. L. Thompson scoring high progressions and receiving a beautiful spoon as the game's trophy.

Mrs. Bradley's pretty home lent an effective background to an unusual number of smart summer toilets and baskets and vases of fall roses, in lovely pinks and lavenders, gave added charm.

Mrs. Bradley was wearing a handsome embroidered gown of white linen, with relief of American Beauty. Miss Hays wore a pretty gown of white marquisette, with insets of lace.

Assisting in the cordial hospitalities of the afternoon were Mrs. D. H. C. Bowen, Misses Bess Kerr and Marie Pursell.

Mrs. Add Wendle, of Wallace-town, Va., and Mrs. William W. Westerfield, of New Orleans, La., were out-of-town guests.

Mrs. Bradley and Miss Hays are entertaining this afternoon with "500".

The girls of the Kensington club, of Bloomingburg, greatly enjoyed their monthly "spread" at the beautiful country home of Mrs. Elton Marine, south of town yesterday.

A beautiful picnic dinner was served under the big trees and a yard full of girls made the scene a lively one.

Unfeigned surprise and no small interest attended the announcement of the engagement of Miss Elva Hickel and Mr. Bennett E. Kelley, at the home of the bride's parents, Mr. and Mrs. John Hickel, Wednesday evening.

About fifteen guests responded to invitations issued by Miss Hickel for a piano recital.

The afternoon passed delightfully, with no premonition of its special significance. Miss Hickel, who is a

brilliant pianist and her well-trained pupils gave a choice program of piano music and at its close introduced novel guessing contests. The climax was reached when the guests were invited to draw for their luncheon partners from a large glass bowl, lined with greenery.

Drawing the cards they were found to contain the inscription—"The News"—Kelley-Hickel, June, 1913," announcing the engagement with the appropos suggestion of Mr. Kelley's vocation as news gatherer.

While the guests were exclaiming over their cards Mr. Kelley and Miss Hickel drew the engagement ring, a handsome solitaire, from the bowl and amid hearty congratulations, it was slipped upon the bride-elect's finger.

The house was beautifully decorated in summer flowers and greenery and the affair marked by attractive appointments.

The announcement will elicit good wishes from an unusually large circle of friends, all over the county.

The future bride is a graduate of the Stinson Conservatory, took her degree of Bachelor of Music at Lebanon university and followed with a summer course in pipe organ at Ohio university at Athens this season. She is a charming girl as well as a talented musician.

Mr. Kelley is the son of Mr. and Mrs. N. T. Kelley and is widely known in his capacity as reporter on The Daily Herald. A natural born hustler and a bright likable fellow, of sterling qualities, he is deservedly popular.

The following announcement, from the Muskogee Daily Phoenix of Sept. 1st., will be of interest to a large number of Fayette citizens:

Mr. and Mrs. Abraham Shoults announce the engagement of their daughter Mabel, to Mr. Orville A. Wise, of Carthage, Mo. The wedding will be an event of the early fall. Mr. Wise is a young attorney, a member of the Jasper county bar and belongs to one of the old pioneer families of Southwestern Missouri.

Allen Martin, traveler for the Western Mfg. Co. in portions of Ohio and Pennsylvania, spent the first of the week with his family.

Herman Price has moved from the Craig property on East street, into the east half of the new Hillery property on S. Fayette street.

Mrs. George Fabb and son, of Covington, Ky., are visiting Mrs. Fabb's father, Mr. James McLean and brother, Mr. Chas. McLean and family.

Mr. and Mrs. H. M. Kingsbury and daughter, Caroline, visited several days with Mr. and Mrs. Joseph Kingsbury in Columbus, the past week.

Mr. and Mrs. Robert Stevenson and son, Elwood, of Brooklyn, N. Y., have been spending a week with their aunt, Mrs. Silas Wike, south of town.

Miss Geneva Peterson, of Darlington, Ind., has been the guest of friends in Bloomingburg, and is now visiting Mrs. Carey Howland, of E. Market street.

Mr. and Mrs. Dick Richardson met the latter's mother, Mrs. Rodgers, of Chillicothe, and accompanied her as far as Dayton. She goes on to Walkersville, Can., to join her husband and son, Elza.

LADIES G. A. R.

Regular meeting of the Ladies of the Grand Army Friday afternoon at 2 o'clock.

LATEST FLASHES FROM BULL MOOSE CONVENTION

Special to Herald.

Columbus, Ohio, Sept. 5.—At the Bull Moose State convention today, John L. Sullivan presented the name of Garford for governor. He was nominated by acclamation, making a speech. Johnson followed with a speech and a big demonstration resulted.

J. W. Conger, Cuyahoga county, Dr. A. O. Sewick, Hamilton Co., and Rev. E. L. Rexford, Franklin county, were chosen presidential electors.

John L. Sullivan nominated for Secretary of State, and in a speech of acceptance announced his withdrawal from the Taft ticket.

Others nominated by acclamation were: For auditor of state, Chas. L. Allen, Marion county; state treasurer, Wm. Kirkley, Jr., Defiance; attorney general, R. R. Nevin, Montgomery county; for congressman-at-large, Randolph Walton, of Franklin, nominated on second ballot, Frank W. Woods, Medina county, being his opponent.

For state dairy and food commissioner, Ed Baker, Steubenville, and judge of supreme court E. E. Erskine, Steubenville, and R. M. Wannamaker, Akron; for clerk of supreme court, Charles Bromley, Cincinnati.

The convention adjourned at 1:30 p. m.

IMPERIAL DEGREE STAFF DECIDES TO FOREGO TRIP

Unforeseen Circumstances Arise Which Cause Many Degree Staffs to Not Participate in World Honors at Sovereign Grand Lodge Meeting at Winnipeg This Month—Conspiracy to "Hold Up" Visitors Is Charged—Staff Now Consists of Sixty-six Members.

It is with feeling of deep regret that the members of Imperial Degree Staff, Temple lodge, I. O. O. F., of this city, have decided that they must forego the trip to Winnipeg, Can., where they intended to participate for world honors in the staff work before the annual session of the Sovereign Grand lodge.

After making extensive plans to attend the convention, and working hard in the endeavor, unforeseen circumstances have arisen which make the trip undesirable, a number of things conspiring to prevent the staff from going.

For several months negotiations have been under way with the railroads, and their rates have been changed a number of times, and all agreements finally terminated, while the city of Winnipeg, or the committee in charge of affairs at Winnipeg, has apparently handed Degree Staffs from the United States a very cool invitation, and among other unreasonable provisos inserted in their "rules" is that the staffs must be on hand at least three days before the convention opens, presumably for the purpose of leaving as much money as possible in Winnipeg.

It is not only impossible for some members of the staff to be away so long, but the exactment is entirely uncalled for, it is claimed. In addition to this no arrangements could be made to "park" special cars in the yards, and the railroads asked that a prohibitive sum be paid each day for cars, whether in use or not.

Besides the above troubles a number of others have been added until the officers of the Staff became thoroughly disgusted and have called the trip off until next year, when it is hoped that the session will be held in the United States, and that some courtesy will be shown.

In making preparations for the trip, Imperial Degree Staff has purchased a complete new set of wardrobes and other paraphernalia, and have added 18 new men to the Staff, making a total of 66 men in the team.

The Sovereign Grand lodge convenes September 16th and the local staff is one of a number which forego the trip for the reasons above outlined.

Mother Looking For Her Young Son

The police department received word this morning from Mrs. Hattie Cartwright, anxious Washington C. H. mother, asking it to be on the lookout for Gerald, her 15-year-old son, who disappeared from his home on Tuesday. The mother thinks the boy came to this city with Cecil Harley, aged 17, and that they are working at Sears and Nichols cannery factory. The police are looking for them.—Chillicothe Advertiser.

Use the Classified column.

Cole Bound Over Evidence Damaging

The trial of Jay Cole, charged with assaulting with intent to kill Dudley Cole, a cousin, was tried before Mayor Smith Wednesday afternoon and bound over to the grand jury in the sum of \$300 which he failed to furnish, and was remanded back to jail to await action of the grand jury.

A number of witnesses were called upon to testify, among them being Harley Fletcher, employed in a restaurant in Springfield, who became acquainted with Cole while working in this city. Fletcher testified that the same day Cole was arrested, and just a few hours before his arrest, Cole had told him that he was looking for some one from this city, as he had struck "Big Buck."

It was shown that Cole was in the city on the night of the attack, and other evidence was so strong that he was held to the grand jury as above mentioned.

Upon being locked up in the jail, Cole became furious, and the "air was blue" with profanity.

WASHINGTON DRUGGIST

DESERVES CREDIT
Christopher deserves praise from Washington C. H. people for introducing here the simple buckthorn bark and glycerine mixture, known as Adler-I-ka. This simple German remedy first became famous by curing appendicitis and it has now been discovered that A SINGLE DOSE removes sour stomach, gas on the stomach and constipation INSTANTLY. It is the only remedy which never fails.

Shafting Strips Man of Clothing

An employee of the Sears Canning factory nearly met death in the machinery Wednesday, when his clothing caught in some of the machinery, and before his fellow employees could extricate him his entire clothing was torn from his body, leaving only his hose and shoes, and he was picked up in a semi-conscious condition.

A physician was summoned at once, finding that the man was not seriously injured, and that his worst injuries consisted of a great many scratches. Had not his clothes given way, death would have resulted.

The affair created a panic among the employees, it is said.

RETURNED TO THEIR HOME.

Mrs. Harrison Lawrence, a sister of Mrs. D. H. Barchet, who with her little daughter, Stella, have been the guests of Mr. and Mrs. Barchet for several weeks have returned to their home in Hinton, W. Va. Mr. and Mrs. Barchet took them as far as Portsmouth in their touring car, making the run there and back, a distance of 260 miles in one day.

FACTS REGARDING THE SUEZ CANAL

To all intents and purposes the Suez Canal is as British in control as the Panama Canal is or will be American. The Suez Canal was built by the French, but the ownership of a dominant interest in its shares was secured in 1875 by British subjects and is held at the pleasure of the British Government. British administrators, backed by a British army, rule Egypt, through which the canal runs, Gibraltar, Malta, Cyprus and Aden, British military strongholds, with the overwhelming British fleet, bar Suez in war to any enemy of the United Kingdom.

Theoretically the Suez Canal is a neutral international highway. Actually it is a British short cut to India and Australia, and the whole world knows it. The convention of Constantinople, signed on October 28, 1888, for the free navigation of the Suez Canal, reads:

"The canal shall be free and open to the vessels of commerce and of war of all nations observing these rules on terms of entire equality, so that there shall be no discrimination against any such nation, or its citizens or subjects, in respect of the conditions or charges of traffic, or otherwise. Such conditions and changes of traffic shall be just and equitable."

Great Britain accepted this agreement. So did the powers of Europe generally. The principal steamship line using the canal is the Peninsular and Oriental. To this line a postal subsidy of about \$1,500,000 is annually paid; its Suez canal tolls amount to about \$1,700,000. The principal German line plying through the canal is the North German Lloyd, which has an annual subsidy of \$1,385,000, sufficient, says our Commissioner of Navigation, "to pay all the tolls and leave a handsome margin."

Japan pays to the Nippon Yusen Kaisha a subsidy of \$1,335,000 for its steamers through Suez; France to the Messageries Maritimes, \$2,145,000. These are all postal, naval or commercial subventions in form, not given expressly as rebates for canal tolls, though all, of course, accomplishing that purpose. But the Russian Government grants a subsidy of 650,000 rubles specifically to pay "the dues exacted of Russian vessels passing through the Suez Canal to and from Russian ports." Australia in her subsidy of 4,700,000 crowns to the Australian Lloyd, directs that this shall be exclusive of the Suez tolls on East India ships, which shall be repaid from the imperial treasury. Sweden gives to her Oriental steamship service a subvention of 1,850,000 crowns, "to represent the amount of tolls paid by the ships of the company for passing through the Suez Canal."

Great Britain, so far as is known, has never made one word of protest against the Russian practice or the Australian practice or the Sweden practice of express remission of these Suez tolls. How could she, when her own principal ships were subsidized, not, perhaps, for the same express purpose, but to virtually the same result? Now, however, when Congress

in response to the desire of the American people, proposes to remit the Panama tolls at least to coastwise ships, the British Government rises up in objection either to the remission of these tolls or to their repayment from the treasury of the United States.

It should be borne in mind that the clause of the Hay-Pauncefote treaty on which the British Government rests its case is literally the same clause quoted above, borrowed, word for word, from the Constantinople agreement. If the repayment of tolls is prohibited at Panama it is prohibited at Suez also. And yet these tolls have been expressly or actually, in whole or in part, repaid year after year to the principal steamship companies of all European flags, the British included. Moreover, European Governments, the British again included, have already increased, or are preparing to increase, other subsidies to their trans-Atlantic steamships by amounts sufficient to cover the anticipated tolls at Panama.

WATER IN CANAL IN YEAR

This Indicated by Work of Excavation on the Panama Ditch During July.

Washington, D. C.—Within a year water will be flowing where the great steam shovels are now working on the Panama canal if excavation continues at the pace set in July. Reports just received here show that during the month 2,633,437 cubic yards of rock and earth were taken out, compared with 2,330,770 cubic yards in June.

Latin and Saxon.

To the southern divinity consists in the intensity and balance of all faculties, and the beauty of the flesh is part of it. We are apt to be unjust to his view of life because we know it best by its evil effects upon the northern mind, to which it is often poison. An Italianized Englishman is often a devil incarnate, because the southern view of life to him means only license. He adopts it without its conscience, and it appeals to his appetites rather than to his imagination.

Reasons 5, 6, 7

FOR SAFETY OF DEPOSITS IN THE BUCKEYE STATE BUILDING AND LOAN CO., RANKIN BUILDING, 22 W. GAY STREET COLUMBUS, OHIO.

5. Our loans are made only on real estate, the safest of all securities.

6. No money is loaned on personal securities of any kind; hence opportunities for less are very small.

7. Most of our borrowers begin to repay at once in monthly payments. This reduces the loan each month and correspondingly increases our security. Assets \$5,900,000. Five per cent. paid on time deposits.

It is the only remedy which never fails.

Shafting Strips Man of Clothing

An employee of the Sears Canning factory nearly met death in the machinery Wednesday, when his clothing caught in some of the machinery, and before his fellow employees could extricate him his entire clothing was torn from his body, leaving only his hose and shoes, and he was picked up in a semi-conscious condition.

A physician was summoned at once, finding that the man was not seriously injured, and that his worst injuries consisted of a great many scratches. Had not his clothes given way, death would have resulted.

The affair created a panic among the employees, it is said.

RETURNED TO THEIR HOME.

Mrs. Harrison Lawrence, a sister of Mrs. D. H. Barchet, who with her little daughter, Stella, have been the guests of Mr. and Mrs. Barchet for several weeks have returned to their home in Hinton, W. Va. Mr. and Mrs. Barchet took them as far as Portsmouth in their touring car, making the run there and back, a distance of 269 miles in one day.

FACTS REGARDING THE SUEZ CANAL

To all intents and purposes the Suez Canal is as British in control as the Panama Canal is or will be American. The Suez Canal was built by the French, but the ownership of a dominant interest in its shares was secured in 1875 by British subjects and is held at the pleasure of the British Government. British administrators, backed by a British army, rule Egypt, through which the canal runs, Gibraltar, Malta, Cyprus and Aden, British military strongholds, with the overwhelming British fleet, bar Suez in war to any enemy of the United Kingdom.

Theoretically the Suez Canal is a neutral international highway. Actually it is a British short cut to India and Australia, and the whole world knows it. The convention of Constantinople, signed on October 28, 1888, for the free navigation of the Suez Canal, reads:

"The canal shall be free and open to the vessels of commerce and of war of all nations observing these rules on terms of entire equality, so that there shall be no discrimination against any such nation, or its citizens or subjects, in respect of the conditions or charges of traffic, or otherwise. Such conditions and changes of traffic shall be just and equitable."

Great Britain accepted this agreement. So did the powers of Europe generally. The principal steamship line using the canal is the Peninsular and Oriental. To this line a postal subsidy of about \$1,500,000 is annually paid; its Suez canal tolls amount to about \$1,700,000. The principal German line plying through the canal is the North German Lloyd, which has an annual subsidy of \$1,385,000, sufficient, says our Commissioner of Navigation, "to pay all the tolls and leave a handsome margin."

Japan pays to the Nippon Yusen Kaisha a subsidy of \$1,336,000 for its steamers through Suez; France to the Messageries Maritimes, \$2,145,000. These are all postal, naval or commercial subventions in form, not given expressly as rebates for canal tolls, though all, of course, accomplishing that purpose. But the Russian Government grants a subsidy of 650,000 rubles specifically to pay "the dues exacted of Russian vessels passing through the Suez Canal to and from Russian ports." Australia in her subsidy of 4,700,000 crowns to the Australian Lloyd, directs that this shall be exclusive of the Suez tolls on East India ships, which shall be repaid from the Imperial treasury. Sweden gives to her Oriental steamship service a subvention of 1,850,000 crowns, "to represent the amount of tolls paid by the ships of the company for passing through the Suez Canal."

Great Britain, so far as is known, has never made one word of protest against the Russian practice or the Australian practice of express remission of these Suez tolls. How could she, when her own principal ships were subsidized, not, perhaps, for the same express purpose, but to virtually the same result? Now, however, when Congress

in response to the desire of the American people, proposes to remit the Panama tolls at least to coastwise ships, the British Government rises up in objection either to the remission of these tolls or to their repayment from the treasury of the United States.

It should be borne in mind that the clause of the Hay-Pauncefote treaty on which the British Government rests its case is literally the same clause quoted above, borrowed, word for word, from the Constantinople agreement. If the repayment of tolls is prohibited at Panama it is prohibited at Suez also. And yet these tolls have been expressly or actually, in whole or in part, repaid year after year to the principal steamship companies of all European flags, the British included. Moreover, European Governments, the British again included, have already increased, or are preparing to increase, other subsidies to their trans-Atlantic steamships by amounts sufficient to cover the anticipated tolls at Panama.

WATER IN CANAL IN YEAR

This Indicated by Work of Excavation on the Panama Ditch During July.

Washington, D. C.—Within a year water will be flowing where the great steam shovels are now working on the Panama canal if excavation continues at the pace set in July. Reports just received here show that during the month 2,633,437 cubic yards of rock and earth were taken out, compared with 2,390,770 cubic yards in June.

Latin and Saxon.

To the southerner divinity consist in the intensity and balance of all faculties, and the beauty of the flesh is part of it. We are apt to be unjust to his view of life because we know it best by its evil effects upon the northern mind, to which it is often poison. An Italianized Englishman is often a devil incarnate, because the southern view of life to him means only license. He adopts it without its conscience, and it appeals to his appetites rather than to his imagination.

IN SOCIETY

Mrs. Frank M. Bradley and Miss Dora Hays were hostesses at a summer "Bridge" of exceptional pleasure Wednesday afternoon.

Eight tables of society women were at play in the popular game, Mrs. D. L. Thompson scoring high progressions and receiving a beautiful spoon as the game's trophy.

Mrs. Bradley's pretty home lent an effective background to an unusual number of smart summer toilets and baskets and vases of fall roses, in lovely pinks and lavenders, gave added charm.

Mrs. Bradley was wearing a handsome embroidered gown of white linen, with relief of American Beauty.

Miss Hays wore a pretty gown of white marquisette, with insets of lace.

Assisting in the cordial hospitalities of the afternoon were Mrs. D. H. C. Bowen, Misses Beas Kerr and Marie Pursell.

Mrs. Add Wendle, of Wallacetown, Va., and Mrs. William W. Westerfield, of New Orleans, La., were out-of-town guests.

Mrs. Bradley and Miss Hays are entertaining this afternoon with "500".

The girls of the Kensington club, of Bloomingburg, greatly enjoyed their monthly "spread" at the beautiful country home of Mrs. Elton Marine, south of town yesterday. A bountiful picnic dinner was served under the big trees and a yard full of girls made the scene a lively one.

Unfeigned surprise and no small interest attended the announcement of the engagement of Miss Elva Hickel and Mr. Bennett E. Kelley, at the home of the bride's parents, Mr. and Mrs. John Hickel, Wednesday evening.

About fifteen guests responded to invitations issued by Miss Hickel for a piano recital.

The afternoon passed delightfully, with no premonition of its special significance. Miss Hickel, who is a

brilliant pianist and her well-trained pupils gave a choice program of piano music and at its close introduced novel guessing contests. The climax was reached when the guests were invited to draw for their luncheon partners from a large glass bowl, lined with greenery.

Drawing the cards they were found to contain the inscription—"The News"—Kelley-Hickel, June, 1913," announcing the engagement with the appropos suggestion of Mr. Kelley's vocation as news gatherer.

While the guests were exclaiming over their cards Mr. Kelley and Miss Hickel drew the engagement ring, a handsome solitaire, from the bowl and amid hearty congratulations, it was slipped upon the bride-elect's finger.

The house was beautifully decorated in summer flowers and greenery and the affair marked by attractive appointments.

The announcement will elicit good wishes from an unusually large circle of friends, all over the county.

The future bride is a graduate of the Stinson Conservatory, took her degree of Bachelor of Music at Lebanon university and followed with a summer course in pipe organ at Ohio university at Athens this season. She is a charming girl as well as a talented musician.

Mr. Kelley is the son of Mr. and Mrs. N. T. Kelley and is widely known in his capacity as reporter on The Daily Herald. A natural born hustler and a bright likable fellow, of sterling qualities, he is deservedly popular.

The following announcement, from the Muskegon Daily Phoenix of Sept. 1st, will be of interest to a large number of Fayette citizens:

Mr. and Mrs. Abraham Shoults announce the engagement of their daughter Mabel, to Mr. Orville A. Wise, of Carthage, Mo. The wedding will be an event of the early fall. Mr. Wise is a young attorney, a member of the Jasper county bar and belongs to one of the old pioneer families of Southwestern Missouri.

Allen Martin, traveler for the Western Mfg. Co. in portions of Ohio and Pennsylvania, spent the first of the week with his family.

Herman Price has moved from the Craig property on East street, into the east half of the new Hillery property on S. Fayette street.

Mrs. George Fabb and son, of Covington, Ky., are visiting Mrs. Fabb's father, Mr. James McLean and brother, Mr. Chas. McLean and family.

Mr. and Mrs. H. M. Kingsbury and daughter, Caroline, visited several days with Mr. and Mrs. Joseph Kingsbury in Columbus, the past week.

Mr. and Mrs. Robert Stevenson and son, Elwood, of Brooklyn, N. Y., have been spending a week with their aunt, Mrs. Silas Wike, south of town.

Miss Geneva Peterson, of Darlington, Ind., has been the guest of friends in Bloomingburg, and is now visiting Mrs. Carey Howland, of E. Market street.

Mr. and Mrs. Dick Richardson met the latter's mother, Mrs. Rodgers, of Chillicothe, and accompanied her as far as Dayton. She goes on to Walkersville, Can., to join her husband and son, Elza.

LADIES G. A. R.

LATEST FLASHES FROM BULL MOOSE CONVENTION

Special to Herald.

Columbus, Ohio, Sept. 5.—At the Bull Moose State convention today, John L. Sullivan presented the name of Garford for governor. He was nominated by acclamation, making a speech. Johnson followed with a speech and a big demonstration resulted.

J. W. Conger, Cuyahoga county, Dr. A. O. Sewick, Hamilton Co., and Rev. E. L. Rexford, Franklin county, were chosen presidential electors.

John L. Sullivan nominated for Secretary of State, and in a speech of acceptance announced his withdrawal from the Taft ticket.

Others nominated by acclamation were: For auditor of state, Chas. L. Allen, Marion county; state treasurer, Wm. Kirkley, Jr., Defiance; attorney general, R. R. Nevin, Montgomery county; for congressman-at-large, Randolph Walton, of Franklin, nominated on second ballot, Frank W. Woods, Medina county, being his opponent.

For state dairy and food commissioner, Ed Baker, Steubenville, and judge of supreme court E. E. Erskine, Steubenville, and R. M. Wannamaker, Akron; for clerk of supreme court, Charles Bromley, Cincinnati.

The convention adjourned at 1:30 p. m.

IMPERIAL DEGREE STAFF DECIDES TO FOREGO TRIP

Unforeseen Circumstances Arise Which Cause Many Degree Staffs to Not Participate in World Honors at Sovereign Grand Lodge Meeting at Winnipeg This Month—Conspiracy to "Hold Up" Visitors Is Charged—Staff Now Consists of Sixty-six Members.

It is with feeling of deep regret that the members of Imperial Degree Staff, Temple lodge, I. O. O. F., of this city, have decided that they must forego the trip to Winnipeg, Can., where they intended to participate for world honors in the staff work before the annual session of the Sovereign Grand lodge.

After making extensive plans to attend the convention, and working hard in the endeavor, unforeseen circumstances have arisen which make the trip undesirable, a number of things conspiring to prevent the staff from going.

For several months negotiations have been under way with the railroads, and their rates have been changed a number of times, and all agreements finally terminated, while the city of Winnipeg, or the committee in charge of affairs at Winnipeg, has apparently handed Degree Staffs from the United States a very cool invitation, and among other unreasonable provisos inserted in their "rules" is that the staffs must be on hand at least three days before the convention opens, presumably for the purpose of leaving as much money as possible in Winnipeg.

It is not only impossible for some members of the staff to be away so long, but the exactment is entirely uncalled for, it is claimed. In addition to this no arrangements could be made to "park" special cars in the yards, and the railroads asked that a prohibitive sum be paid each day for cars, whether in use or not.

Besides the above troubles a number of others have been added until the officers of the Staff became thoroughly disgusted and have called the trip off until next year, when it is hoped that the session will be held in the United States, and that some courtesy will be shown.

In making preparations for the trip, Imperial Degree Staff has purchased a complete new set of wardrobes and other paraphernalia, and have added 18 new men to the Staff, making a total of 66 men in the team.

The Sovereign Grand lodge convenes September 16th and the local staff is one of a number which forego the trip for the reasons above outlined.

Mother Looking For Her Young Son

The police department received word this morning from Mrs. Hattie Cartwright, anxious Washington C. H. mother, asking it to be on the lookout for Gerald, her 15-year-old son, who disappeared from his home on Tuesday. The mother things the boy came to this city with Cecil Harley, aged 17, and that they are working at Sears and Nichols cannery factory. The police are looking for them.—Chillicothe Advertiser.

Use the Classified column.

Cole Bound Over Evidence Damaging

The trial of Jay Cole, charged with assaulting with intent to kill Dudley Cole, a cousin, was tried before Mayor Smith Wednesday afternoon and bound over to the grand jury in the sum of \$300 which he failed to furnish, and was remanded back to jail to await action of the grand jury.

A number of witnesses were called upon to testify, among them being Harley Fletcher, employed in a restaurant in Springfield, who became acquainted with Cole while working in this city. Fletcher testified that the same day Cole was arrested, and just a few hours before his arrest, Cole had told him that he was looking for some one from this city, as he had struck "Big Buck."

It was shown that Cole was in the city on the night of the attack, and other evidence was so strong that he was held to the grand jury as above mentioned.

Upon being locked up in the jail, Cole became furious, and the "air was blue" with profanity.

WASHINGTON DRUGGIST DESERVES CREDIT

Christopher deserves praise from Washington C. H. people for introducing here the simple buckthorn bark and glycerine mixture, known as Adler-I-Ka. This simple German remedy first became famous by curing appendicitis and it has now been discovered that A SINGLE DOSE removes sour stomach, gas on the stomach and constipation INSTANTLY. It is the only remedy which never fails.

Shafting Strips Man of Clothing

An employee of the Sears Canning factory nearly met death in the machinery Wednesday, when his clothing caught in some of the machinery, and before his fellow employees could extricate him his entire clothing was torn from his body, leaving only his hose and shoes, and he was picked up in a semi-conscious condition.

Xenia Poverty Ridden And Will Slash Salaries

The effect of the Smith 1 per cent law, which has so reduced the revenue of the city that intrenchment has been necessary to every department of the city government, will next be felt by the city officials whose salaries will probably be cut by the city council. Preliminary action toward that end was taken by council at its regular meeting Friday night when on motion of T. H. Zell, a committee was appointed to investigate the feasibility of cutting the salaries of the officials of the city and to report a resolution fixing new salaries.

It is the opinion of some of the council that a large cut in salaries will be necessary in order to reduce the city's expenses to such an extent that the city may live within its income. That the salary of councilmen will be entirely done away with is possible. Of course, under the law such a salary cutting action on the part of council can not take effect during the present term of the city officials, but will be effective when the next term of office begins.

An important communication from the Xenia Library Association was presented at the Friday meeting of council, calling attention to the fact that on December 12, 1902, the city council of Xenia passed a resolution pledging the city to provide for the support and maintenance of the public library as required by the Carnegie donation providing the Board of Education of Xenia City School District should fail to carry out its pledge made to secure the donation. The Association notified council in its communication that the Board of Education had withdrawn its support, and declared that unless the city complies with its pledge it seems the library must close. Owing to the fact that the city authorities are already facing a shortage in funds, it is doubtful if anything can be done in the matter. Council placed the communication of file without taking any action concerning it.

The question as to whether or not the city of Xenia owns 255 feet of property on Dayton avenue, was introduced through a communication from Director of Service Whitmer, who said the city should construct sidewalks in front of the property. On motion the City Solicitor, City Engineer and sidewalk committee, were instructed to determine who owns the property in question. The Director of Service asked that \$600 be appropriated from the Public Service fund to the street fund for street repair. A resolution to that effect was passed.

A bill for \$5.82 against the Board of Health was turned down, as the Health Board has funds of its own sufficient to pay the bill.

A resolution providing for the construction of certain walks on Charles street, which has previously been read twice was placed on its third reading and passed. The sidewalk committee endeavored to amend this resolution to include several other streets, but the City Solicitor ruled that such amendments could not be made. Another resolution will be drafted covering the streets named in the proposed amendment. Already this year council has ordered in 17 miles of new walks.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Suffer From Lack Of Plenty of Air

"Probably not more than one person in every hundred taking the country as a whole, gets enough fresh air to ward off the ordinary attacks of dangerous infectious and contagious diseases," says Dr. Livingston Farrand, Executive Secretary of The National Association for the Prevention of Tuberculosis, in a statement issued today from the association's headquarters in New York.

"People," continues Dr. Farrand, "fail to get enough fresh air either because their lungs, or other respiratory organs are affected, or, more generally, simply because they do not open the windows and doors. For the former class a physician is needed, but for the latter, plain directions on how to live, work, play and sleep in the open air will do more than hospitals and drugs.

"To meet the need of this latter group—not especially those who are sick but those who are seemingly well.—The National Association has prepared a handbook on "Fresh Air and How to Use it." This book is designed to prevent tuberculosis by showing those people who have no trace of the disease how to ward off the attack of consumption by living and sleeping in the open air. Failure to get enough fresh air by working and sleeping in poorly ventilated, overcrowded rooms is one of the most prolific causes of tuberculosis and also of a host of other infectious diseases. The free gift of nature is probably the world's best medicine, not only in the treatment, but in the prevention of disease.

"Our new handbook on this subject, tells how anyone can obtain fresh air in the home, the shop, or the schoolroom at a cost ranging anywhere from \$1 to \$1,000 or more according to the elaborateness of the equipment desired."

While we cannot afford to distribute the book itself free of charge, we will send to anyone an illustrated synopsis or summary of it, entitled "Directions for Living and Sleeping in the Open Air," on request at our office, 105 East 22nd Street, New York City.

Don't buy water for bluing. Liquid blue is almost all water. Buy Red Cross Ball Blue, the blue that's all blue.

Fit Companion For Paris Apaches

We now begin to see the city as it is. We now know "Dago Frank," "Whitey Lewis" and "Jack Sullivan"—to say nothing of "Lefty Louie" and "Gyp the Blood," whom we look to meet later. Gangsters; gamblers, wielders of the knife, dope fiends prowlers of the night, regarding murder as a sport, ready to spill blood like water for revenge or a few dollars—we see them all. And around and above them all we see the like of Jack Rose and "Bridgie" Webber and Vallon and Sam Schepps with crafty brains and grasping fingers sneaking money and weaving plans to set their underlings crawling through the shadows with bloody thoughts and ready guns. No big city escapes it. Every now and then the life of a great community seems suddenly to seethe and to throw off its impurities in a kind of horrid boil of murder and outlawry. Over and over again the West has tamed its bad men with vigilance committees and bullets. Only a few months ago Paris had its horde of bandits whose murderous daring horrified the world and seemed to know no bounds. New York looked on with a certain sense of superiority while the Paris police hunted down desperadoes one by one and shot and dynamited them like wild beasts. Now we have ours. We are rounding up our savages. How shall we deal with them? We may be proud indeed, if we succeed in stamping out our brigandage, not by gun or nitroglycerine, but with only justice—swift and sure.—New York Evening World.

John D. On Business Routine

Have rules and routine disappeared from business life? There was a period when the time schedule ruled both young and old in shop and office; when the successful man of affairs rose at seven, breakfasted at eight, was at his office at nine, dictated letters until ten, and so on until five or six o'clock daily throughout the year. Now the rules and

routine have apparently gone. It is true that there are still some who hold fast to the gospel of detail—and of these is Mr. John D. Rockefeller, who writing in the September Strand says: "I confess that I attach great importance to routine. I believe that every young man who intends to succeed in business should do as I did—take a course at a commercial college. I do not believe in what is called 'the rule of thumb'; the rudiments of business should be properly taught, and the ground prepared to build upon. If a youth has had no thorough grounding, a time may come when his weakness for detail will show itself.

"When people write to me asking for the secret of my success, I always tell them that I owe everything to a love for, and mastery of, details. A man playing chess or billiards or golf must attend to details if he wants to win—why must he not do so in business? Everyone ought to be able to keep his own books and know exactly to a penny how the money comes in and how it goes out. I have known many bright intelligent men who never really knew all the facts about their own affairs. They did not actually know when they were making money on a certain operation and when they were losing. Such business men live in a fool's paradise; they hate to study books and face the truth. They are often brilliant at a single great stroke, but they cannot keep up the game, simply because they are weak in detail, and they are weak in detail because they have never studied its principles."

THOMAS HOOD'S OVERSIGHT.

Thomas Hood gave to literature the undying "Song of the Shirt", but he might have written an even sadder song, that of the washtub. Easy Task laundry soap was unknown in his day. It is only for the last quarter century that it has been relieving women of backaches and bruised hands. It takes the dirt out of or off anything—actually does most of the work itself. Your grocer has it.

It's Good Bye, Mr. Ice Man

Frank Anderson, a young inventor of Cincinnati claims to have perfected a process which conquers heat and will cause ice in the chest at home to take its time about melting. It is in the form of a liquid, which, when sprayed on a thermometer in a test recently, froze the mercury in the tube at a temperature of 75 degrees, which is herewith depicted. A pint of liquid will last a year, and it can be pumped through any refrigerator in which a small coil has been placed.

Townsley Swine Win Premiums

Mr. John Townsley, of the Chillicothe pike, made some good winnings at the Ohio State Fair, where he showed some fancy pigs in the Poland-China \$5,000 Futurity, winning 2nd on a male pig in a class of 51, and second on a sow pig in a class of 85.

The great \$5,000 Futurity stake is open to six states, and Mr. Townsley is greatly pleased with the splendid showing made by his swine.

Mr. Townsley is the breeder of some of the finest Poland-China swine in the United States.

SENT ALL OVER THE WORLD.

"Grace, I saw in the paper the other day that Mrs. J. C. Leonard, wife of the Lieut. Commander of the United States Navy, regards Mrs. Mason's Old English Hair preparations so highly that she has them sent to her all over the world, including China and Japan, and she has recommended them to friends there who also send to New York for them, as they will not use anything else.

"Now, Mother was just saying yesterday, that she was astonished to find how easy it is to wash one's own hair with Mrs. Mason's Old English Shampoo Cream."

"It produces a stimulating, luxurious lather which not only removes the dust, grit and dandruff, but at the same time you are rubbing the tonic properties of the herbs into the roots of the hair, which restores vitality and stimulates the growth and it makes the hair look twice as thick by reason of its fluffy appearance."

"And Grace, do you know, you can get Mrs. Mason's Old English Shampoo Cream now right here in Washington C. H., at Blackmer & Tanquary's Drug Store, and a 25c tube is enough for several shampoos."

A necessity in every household

You need not worry any more about the unsightly, discolored water-closet bowl. Sani-Flush will make it clean and white as new without the unpleasantness of the old ineffectual methods. It is easy to use—works like magic—no scouring or scrubbing—no touching the bowl with the hands or dipping out of the water.

Sani-Flush is a powdered chemical compound—it will not injure the bowl or plumbing like dangerous acids.

Get a can of Sani-Flush and save the labor and unpleasantness in a necessary household task.

Empire State Progressives Have Fight On

(Continued from Page One.)

Some are saying that Prendergast must not run because he is a Catholic, and the non-Catholics will oppose him. Then others are saying that he must not run because he is a Catholic and as comptroller he has been doing things that the Catholics have not liked, and so they will oppose him.

These differences have led to a change in the program for the convention. Chairman Hotchkiss is to call it to order and ex-Senator F. M. Davenport is to be temporary chairman. Mr. Davenport may also be permanent chairman.

Douglas Robinson, brother-in-law of Colonel Roosevelt, arrived with Mr. Davenport, and frankly stated that he hoped Mr. Davenport would get a place on the state ticket. Mr. Davenport has already been nominated by the Progressives for congress in the Herkimer-Oneida district.

Prendergast's friends are determined to prevent Hotchkiss' nomination if possible. Mr. Woodruff is full of fight to get the nomination for Mr. Prendergast. Woodruff says that Prendergast was almost the first man in the fold in New York, and he does not think that men who have been supporting him right along would vote against him now.

Vermont Result a Factor.

As a matter of fact the Vermont election has developed more candidates for office in this convention than before the result was known in the Green Mountain State.

The following is a list of candidates for governor: William H. Hotchkiss, New York; William A. Prendergast, New York; Charles C. Alden, Erie; Bainbridge Colby, New York; Professor F. M. Davenport, Clinton.

After the speech of Temporary Chairman Davenport today, Former Representative W. Bourke Cochran is to deliver an address on the judiciary and the recall of judicial decisions, and the convention is to adjourn until tomorrow, when Governor Hiram W. Johnson of California is to deliver a fiery speech to the convention. It may be possible to get to nominations tomorrow afternoon, and evening, but there is also a possibility of the convention lasting over until Saturday.

Insane Patient Killed.

Toledo, O., Sept. 5. — That Henry McGuire, 50, of Defiance, who was found dead in his room at the Toledo state hospital, was beaten to death, is the opinion of Coroner Henzler. Henzler says that McGuire attacked Attendant Spear, who, it is alleged, tripped the man and with Attendant Melr knelt on him, crushing his ribs, and badly beat him up. Superintendent Love discharged both attendants. The coroner says arrests may follow.

B. & O. Now Controls 5,449 Miles of Track

The Baltimore and Ohio System, including the Cincinnati, Hamilton and Dayton Railway, now controls 5,449 miles, extending through or into twelve states with 44.12 per cent of the total population of the United States, and reaches directly by its own rails such important centers as New York, Philadelphia, Baltimore, Washington, Pittsburg, Cleveland, Cincinnati, St. Louis and Chicago, and other cities, with an aggregate population exceeding fifteen millions.

On April 24, 1827, the Baltimore and Ohio, the first in America, and the first in the world to do a general passenger and goods traffic, was organized. Each of the eighty-five (85) intervening years has contributed notable events in the history of the property, but none more than the past two years, when thirty millions of dollars have been expended to provide additional facilities, and as much more for locomotive and car equipment to meet the demands

of general business, and particularly the increasing industrial development on the Company's lines.

As is indicated on the outline map herewith, the lines connecting these great commercial and industrial centers also traverse ten of the most important coal areas, comprising some ten million acres of gas, steam by-product, and coking coal, in the states of Maryland, Pennsylvania, West Virginia, Ohio, Indiana, Illinois and Kentucky. This in itself would put the road in a strong position, but taken in conjunction with the wonderful natural gas fields, the extensive bodies of iron, limestone, shales, clay and ceritable mountains of purest glass sand, places it among the foremost industrial carriers of the states.

Notwithstanding the importance of coal and ores, the traffic of the system, which last year aggregated seventy-one million tons, is widely diversified, as the following figures will show:

	Tons	Per Cent Of Total
Products of agriculture	4,482,915	6.33
Products of Animals	1,174,910	1.16
Coal and Coke	36,854,932	52.06
Ores, Stone, Sand &c.	8,163,893	11.53
Products of Forests	3,767,288	5.32
Manufactures	10,688,343	15.10
Merchandise	2,667,805	3.77
Miscellaneous	2,994,888	4.23
Total	70,794,974	100.00

And Will Slash Salaries

The effect of the Smith 1 per cent law, which has so reduced the revenue of the city that intrenchment has been necessary to every department of the city government, will next be felt by the city officials whose salaries will probably be cut by the city council. Preliminary action toward that end was taken by council at its regular meeting Friday night when on motion of T. H. Zell, a committee was appointed to investigate the feasibility of cutting the salaries of the officials of the city and to report a resolution fixing new salaries.

It is the opinion of some of the council that a large cut in salaries will be necessary in order to reduce the city's expenses to such an extent that the city may live within its income. That the salary of councilmen will be entirely done away with is possible. Of course, under the law such a salary cutting action on the part of council can not take effect during the present term of the city officials, but will be effective when the next term of office begins.

An important communication from the Xenia Library Association was presented at the Friday meeting of council, calling attention to the fact that on December 12, 1902, the city council of Xenia passed a resolution pledging the city to provide for the support and maintenance of the public library as required by the Carnegie donation providing the Board of Education of Xenia City School District should fail to carry out its pledge made to secure the donation. The Association notified council in its communication that the Board of Education had withdrawn its support, and declared that unless the city complies with its pledge it seems the library must close. Owing to the fact that the city authorities are already facing a shortage in funds, it is doubtful if anything can be done in the matter. Council placed the communication of file without taking any action concerning it.

The question as to whether or not the city of Xenia owns 255 feet of property on Dayton avenue, was introduced through a communication from Director of Service Whitmer, who said the city should construct sidewalks in front of the property. On motion the City Solicitor, City Engineer and sidewalk committee, were instructed to determine who owns the property in question. The Director of Service asked that \$600 be appropriated from the Public Service fund to the street fund for street repair. A resolution to that effect was passed.

A bill for \$5.82 against the Board of Health was turned down, as the Health Board has funds of its own sufficient to pay the bill.

A resolution providing for the construction of certain walks on Charles street, which has previously been read twice was placed on its third reading and passed. The sidewalk committee endeavored to amend this resolution to include several other streets, but the City Solicitor ruled that such amendments could not be made. Another resolution will be drafted covering the streets named in the proposed amendment. Already this year council has ordered in 17 miles of new walks.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Suffer From Lack Of Plenty of Air

"Probably not more than one person in every hundred taking the country as a whole, gets enough fresh air to ward off the ordinary attacks of dangerous infectious and contagious diseases," says Dr. Livingston Farrand, Executive Secretary of The National Association for the Prevention of Tuberculosis, in a statement issued today from the association's headquarters in New York.

"People," continues Dr. Farrand, "fail to get enough fresh air either because their lungs, or other respiratory organs are affected, or, more generally, simply because they do not open the windows and doors. For the former class a physician is needed, but for the latter, plain directions on how to live, work, play and sleep in the open air will do more than hospitals and drugs.

"To meet the need of this latter group—not especially those who are sick but those who are seemingly well.—The National Association has prepared a handbook on 'Fresh Air and How to Use It.' This book is designed to prevent tuberculosis by showing those people who have no trace of the disease how to ward off the attack of consumption by living and sleeping in the open air. Failure to get enough fresh air by working and sleeping in poorly ventilated, overcrowded rooms is one of the most prolific causes of tuberculosis and also of a host of other infectious diseases. The free gift of nature is probably the world's best medicine, not only in the treatment, but in the prevention of disease.

"Our new handbook on this subject, tells how anyone can obtain fresh air in the home, the shop, or the schoolroom at a cost ranging anywhere from \$1 to \$1,000 or more according to the elaborateness of the equipment desired."

While we cannot afford to distribute the book itself free of charge, we will send to anyone an illustrated synopsis or summary of it, entitled "Directions for Living and Sleeping in the Open Air," on request at our office, 105 East 22nd Street, New York City.

Fit Companion For Paris Apaches

We now begin to see the city as it is. We now know "Dago Frank," "Whitey Lewis" and "Jack Sullivan"—to say nothing of "Lefty Louie" and "Gyp the Blood," whom we look to meet later. Gangsters; gunmen, wielders of the knife, dope fiends prowling of the night, regarding murder as a sport, ready to spill blood like water for revenge or a few dollars—we see them all. And around and above them all we see the like of Jack Rose and "Bridgie" Webber and Vallon and Sam Schepps with crafty brains and grasping fingers sneaking money and weaving plans to set their underlings crawling through the shadows with bloody thoughts and ready guns. No big city escapes it. Every now and then the life of a great community seems suddenly to seethe and to throw off its impurities in a kind of horrid boil of murder and outlawry. Over and over again the West has tamed its bad men with vigilance committees and bullets. Only a few months ago Paris had its horde of bandits whose murderous daring horrified the world and seemed to know no bounds. New York looked on with a certain sense of superiority while the Paris police hunted down desperadoes one by one and shot and dynamited them like wild beasts. Now we have ours. We are rounding up our savages. How shall we deal with them? We may be proud indeed, if we succeed in stamping out our brigandage, not by gun or nitroglycerine, but with only justice—swift and sure.—New York Evening World.

WANTED

20 men at the fertilizer plant of

The M. Hamm Co.
About September first.

It is true that there are still some who hold fast to the gospel of detail—and of these is Mr. John D. Rockefeller, who writing in the September Strand says:

"I confess that I attach great importance to routine. I believe that every young man who intends to succeed in business should do as I did—take a course at a commercial college. I do not believe in what is called 'the rule of thumb'; the rudiments of business should be properly taught, and the ground prepared to build upon. If a youth has had no thorough grounding, a time may come when his weakness for detail will show itself.

"When people write to me asking for the secret of my success, I always tell them that I owe everything to a love for, and mastery of, details. A man playing chess or billiards or golf must attend to details if he wants to win—why must he not do so in business? Everyone ought to be able to keep his own books and know exactly to a penny how the money comes in and how it goes out. I have known many bright intelligent men who never really knew all the facts about their own affairs. They did not actually know when they were making money on a certain operation and when they were losing. Such business men live in a fool's paradise; they hate to study books and face the truth. They are often brilliant at a single great stroke, but they cannot keep up the game, simply because they are weak in detail, and they are weak in detail because they have never studied its principles."

THOMAS HOOD'S OVERSIGHT.

Thomas Hood gave to literature the undying "Song of the Shirt", but he might have written an even sadder song, that of the washtub. Easy Task laundry soap was unknown in his day. It is only for the last quarter century that it has been relieving women of backaches and bruised hands. It takes the dirt out of or off anything—actually does most of the work itself. Your grocer has it.

It's Good Bye, Mr. Ice Man

Frank Anderson, a young inventor of Cincinnati claims to have perfected a process which conquers heat and will cause ice in the chest at home to take its time about melting. It is in the form of a liquid, which, when sprayed on a thermometer in a test recently, froze the mercury in the tube at a temperature of 75 degrees, which is herewith depicted. A pint of liquid will last a year, and it can be pumped through any refrigerator in which a small coil has been placed.

Townsley Swine Win Premiums

Mr. John Townsley, of the Chillicothe pike, made some good winnings at the Ohio State Fair, where he showed some fancy pigs in the Poland-China \$5,000 Futurity, winning 2nd on a male pig in a class of 51, and second on a sow pig in a class of 85.

The great \$5,000 Futurity stake is open to six states, and Mr. Townsley is greatly pleased with the splendid showing made by his swine.

Mr. Townsley is the breeder of some of the finest Poland-China swine in the United States.

SENT ALL OVER THE WORLD.

TY Cobb is said to be thinking seriously of buying the Indianapolis club of the American association.

Harry Davis has picked up a coming star, he thinks, in Billy Hunter, the Southern Michigan youngster.

Otto Knabe of the Phillies is now said to be the man Garry Hermann wants for manager of the Reds next year.

Ed Sweeney, the Yankees' star backstop, is hitting the ball hard and helping the Yankees climb out of the cellar.

My Worst Blunder

FAMOUS "BONEHEAD" PLAYS ON MAJOR LEAGUE DIAMONDS

Explained by Leading Baseball Players to HUGH S. FULLERTON

By "WILD BILL" DONOVAN,

Veteran Pitcher Detroit Tigers, Who Is Considered One of the Best of the Fast Ball Hurlers the Game Has Ever Known.

Here's a sure sign. Connie Mack never could win a pennant during a presidential year. He drew blanks in '04 and '08.

The Senators look like a real ball team and are being treated like a real team for the first time in the history of the game.

Ray Collins is now one of the leading left-hand pitchers of the country. Collins is one of the few who have made good this season.

A team that will play ten games without an error is one worth looking over for stars. That's what the Lincoln (Neb.) team did recently.

Griffith thinks Joe Wood of the Red Sox is due for a slump before long and he has been waiting for it in order to take his team into first place.

President Sol Meyer of the Indianapolis team is buying players of all kinds and degrees. He is going to make the Indians win if quantity has anything to do with it.

Why the Football Squad Laughed.

Those who were there when this incident happened some twelve years ago never tire of telling the following yarn on I. I. Cammack, assistant superintendent of schools:

Professor Cammack was vice principal of the Central high school in 1900 or thereabouts and the athletic movement had led to the formation of a football squad. The ambitious were led to one of the study halls on a Friday afternoon, where Professor Cammack addressed them after this fashion:

"I am glad to see you boys here and pleased to notice that you are taking an interest in athletics. I think it is a fine thing to be interested in healthful sports. Football will give you confidence. We need boys and men of confidence in this country. In fact, I want to make confidence men out of all of you."

Perhaps the genial professor is wondering to this day why the football squad broke into loud laughter.—Kansas City Journal.

Ottawa, Ont.—John Carroll of New York, an employee of Haag's circus, is dead at Moncton, New Brunswick. He had his arm mangled by a lioness and blood poisoning followed.

Fined for Pinching Woman.

Chicago.—Because he pinched the cheek of a woman sitting ahead of him in a street car, "Just for a joke," William Keating was fined one hundred dollars.

It was the first game of our first world's series against the Cubs, which was the greatest game, in many respects, I ever saw or took part in. It was also the most heart-breaking finish that I ever experienced during my

Bill Donovan.

career. The teams did not know each other very well, and both were near their best, all primed up, and I never was better or had better control. You probably will recall the situation in the ninth inning. We had the Cubs 3 to 1 when they came to bat, and it looked as if the game was over. The strain was telling on every man in the game and I think I never saw as much excitement on the field and in the stands. They got men at first and second with only one out, and the next batter hit a slow bouncer down to Bill Coughlin on third. Bill fumbled the ball just long enough to let all the runners land in safety. The next man went out on a fly ball that scored the runner from third and allowed the others to move up, but I never felt more confident. The game ought to have been over right there, and yet with Joe Tinker coming to bat I didn't worry, as I had fooled Joe the other three times at bat, and it looked comfortable. Chance thought Tinker couldn't hit me and he sent Del Howard to bat in his place. I didn't know much about Howard, but figured that speed would stop him, and I shot two fast ones over just as hard as I could. He took them both and they both were called strikes. Schmidt, who was catching, walked half way down to the pitcher's slab and asked me what I was going to pitch. With only one ball left to clinch it, I suppose he thought it best to make sure that no signal could go wrong. I told him I was going to try to break a low curve in close around Howard's knees. I figured he would

If I had been a dead shot with a rifle I could not have shot the ball more accurately. The curve broke perfectly, went in and just across Howard's knees. I thought it was over, but in some way the ball got past Charlie, broke through his glove, and of course the tying run came over, and we fought it out to a tie.

I have seen this written up as a wild pitch, or as a badly pitched ball, but I give you my word that I never placed a ball better in my life. It was merely an accident. Such a ball wouldn't get past Schmidt once in a million years, and no one ever will know why it got past that time. (Copyright, 1912, by W. G. Chapman.)

TO MAKE TABLE CLOTHS LAST.

Table linen is expensive. It costs more today than it did five years ago. When it begins to wear in holes, to come from the wash with worn spots that tell how soon it will be no good, no wonder the housewife despairs. Cheap, common soap full of caustic that eat the linen are greatly to blame. Easy Task laundry soap is an enemy to dirt and stains and a friend to the table linen. Get two five cent cakes; try it, and if it does not surprise and satisfy you the makers will return your money.

REWARDS OF BASEBALL

Other Players Than Pitchers Are Paid Big Money.

World's Championship Series of Last Fall Unearthed Hero in Person of Frank Baker of Philadelphia Athletic Team.

It isn't necessary to be a pitcher to earn big money, for there are other departments of the game in which to shine. It has been said that every world series develops a new hero. That applies to third baseman Frank Baker, who is now known as Home-run Baker. Baker was one of the leading factors in the Athletics' late victory over the Giants, and his efforts were rewarded by prize money to the extent of \$3,654.59, this being his share of the extra \$75,746.37, which was divided among the 21 eligible players of his team. When a baseball player can secure \$609 per game for six games his earning ability compares favorably with any man whose business success depends upon his hands as well as his brains. That the Philadelphia American League club considered that Baker was worth the money is shown by the fact that he signed a contract this season calling for almost \$1,000 a month for the seven months of major league baseball.

Two veterans who have drawn big dividends from the national game for more than a decade are Hans Wagner

Frank Baker.

of the Pittsburg Pirates and Christy Mathewson of the New York Giants. Each player has been a star in his position and has been paid accordingly. It is estimated that Wagner has received more than \$100,000 for his labors on the diamond, and he is still a mighty drawing card on the National league circuit. The average fan who has seen Wagner executing one of his marvelous stops and throws, or clearing the bases with a terrific home-run drive over the centerfielder's head, will tell you that he is worth the money.—Harper's Weekly.

IMPERIAL REBEKAH LODGE NO. 717.

LULA LARRIMER, F. E. C. STELLA PLYLEY, N. G.

By IRWIN M. HOWE, Official Statistician of the American League

JOHN J. MCGRAW'S "RED LETTER" DAY

IN his hours of leisure John J. McGraw, manager of the National league champions, occasionally recalls some of the great days with which his life has been studded, none can loom more brightly before him than September 25, 1894. That was the day the Baltimore Orioles won their first pennant. It was the beginning of a great career. The game was played on the Cleveland grounds against the Spiders—aptly named—as pleasant company, probably as any baker's dozen of tarantulas, and to would-be pennant winners as dangerous. The Baltimore victory was the initial triumph of a new system, a chart that has since served as a guide for all successful managers. It was the first use of what may be termed the unit system, where individual glory is subordinated to team success. Like other winners in later years, the Orioles were not seriously considered until too late. The early victories of the season represented, according to some critics, the measure of indifference of better teams, later successes an overplus of enthusiasm sure to evaporate. In the end, said to say, they intimidated the umpires.

John McGraw.

runners stamp the home plate, while McGraw slid safely into second base and the Orioles had won their first pennant.

(Copyright, 1912, by Joseph B. Bowles.)

Ted Easterly's Glove.
Every man on the Nap squad has respect for Ted Easterly's catcher's mitt. Every man has taken his turn at trying to wield it in warming up, and each one has tossed it aside after taking half a dozen throws. "It weighs about a ton," said one of the squad. "When I use my own glove after handling that thing I'm light-handed, and can't place my glove for five or ten minutes."

Mr. Thad P. Carr, tuner, is now in Washington C. H. Leave orders at Cherry Hotel. 207 1st

FAMOUS "BONEHEAD" PLAYS ON MAJOR LEAGUE DIAMONDS

Explained by Leading Baseball Players to HUGH S. FULLERTON

By "WILD BILL" DONOVAN,

Veteran Pitcher Detroit Tigers, Who Is Considered One of the Best of the Fast Ball hurlers the Game Has Ever Known.

The biggest mistake I ever made never can be explained. It is one of those things that will happen in baseball, no matter how carefully a man may figure out a play or how well he may pull it off. It was the toughest thing that ever happened to me in baseball and I always will believe it was the play that beat us out of a world's championship. Anyhow, it kept us from winning the first world's championship game we ever were in, and turned the whole series against us. The fact that I did exactly what I wanted to do, and then lost the game by it, doesn't make it feel any easier.

It was the first game of our first world's series against the Cubs, which was the greatest game, in many respects, I ever saw or took part in. It was also the most heartbreaking flub that I ever experienced during my

Bill Donovan.

career. The teams did not know each other very well, and both were near their best, all primed up, and I never was better or had better control. You probably will recall the situation. In the ninth inning. We had the Cubs 8 to 1 when they came to bat, and it looked as if the game was over. The strain was telling on every man in the game and I think I never saw as much excitement on the field and in the stands. They got men at first and second with only one out, and the next batter hit a slow bouncer down to Bill Coughlin on third. Bill fumbled the ball just long enough to let all the runners land in safety. The next man went out on a fly ball that scored the runner from third and allowed the others to move up, but I never felt more confident. The game ought to have been over right there, and yet with Joe Tinker coming to bat I didn't worry, as I had fooled Joe the other three times at bat, and it looked comfortable. Slicing Cucumbers 3 for 5c, 20c per dozen

Large green Mango Peppers 4 for 5c; 15c dozen

Fresh Canteloupes every day—Home-grown, Indiana and Colorado.

Noble's Guaranteed Indiana Watermelons; they are as fine as silk.

Purity Cakes give satisfaction and saves home baking. We get them fresh right along. Price 5c, 10c and 15c each. Best for the money ever sold in town. Try them once.

Fancy Fry Chickens 16c per pound.

Fabulous Wealth In the Nation's Crops

Inquiries are made for an explanation of the manner in which the money value of the crops of this year is to be realized and by whom it is to be received, and there are further inquiries for information whether or not the estimate of \$9,000,000,000 be correct and, if this sum be the amount received, how it is to be distributed.

These questions show the interest of the public in the details, so far as money is concerned, of what is likely to prove on the whole the greatest American harvest in money value. Of course, the greater part of the money received from the sale of the crops will be paid over to the farmers who have cultivated such good results this year. Yet it is impossible to make any estimate of the net amount the farmers will receive. They must pay a good many million dollars to the harvest hands.

These payments must be made in cash. The farmers may have large deposits in the aggregate upon which they can draw for these payments. But the magnitude of the crops will entail banking accommodations which will be readily granted. That involves discount charges. There are also storage charges, transportation expenses and many incidentals which will cut considerably into the aggregate sum received by the farmers.

To Get a Chunk.

All sorts of estimates have been received in the past of the net returns of the American farmers as a result of their marketing of the harvests for any one year. Should the net returns be no greater than ten per cent, then the American farmers will have to the good between nine million and a billion dollars. What that means for general prosperity is not necessary to explain. The net gains of the farmers of the South for the past ten years have made much of the industrial and commercial growth of that section possible.

It is also the opinion of banking authority that the net gains to American farmers since the good year began—about 15 years ago—serve in great measure to explain the change throughout many parts of the West, so that now these sections are financially independent, having capital to lend or invest, whereas before that time a considerable part of the better class of the United States lived in the agricultural communities.

When Thomas B. Reed was a member of the lower house of Congress, he replied to a criticism directed at the magnitude of his appropriations by an epigram which passed into history, "This is a billion dollar country." If some of the estimates which have recently been made of the money value of the harvests of this year are justified by the event, then we can properly speak of our country as a ten-billion-dollar nation.

Not Mere Guesswork.

Conservative estimate, or at least estimate made by conservative bankers in the central section of the country, now fix the money value of the crops at about \$9,050,000,000. The detailed nature of this estimate suggested by the figures 50,000,000, indicates that the estimate is a computation or calculation based upon information, and is not mere guesswork. This is the estimate made by President George Reynolds, who has in Chicago built up one of the greatest banking institutions of the world.

In this city estimates have been made recently of a \$10,000,000,000 crop, although these figures are based upon a consideration of the favorable growing and harvesting weather the maturity of the corn crop under benign climate influences and an improvement in the condition of the cotton crop, as compared with the latest of the government estimates.

All agree that the money value of the harvest of this year will be approximately \$650,000,000 greater than the money value of the harvest of 1911. These figures are equal to the estimate now made of the visible balance of trade in favor of the United States for this calendar year, although some of the estimates do not put the figures higher than \$600,000,000.

With the creation of an international visible trade balance approximately equal to the estimates, the United States will be in position to establish very great credits in Europe. These credits can be utilized for the financing of some of the greater propositions now planned. They will undoubtedly, although in an indirect way, serve to aid in the great financing necessary for the new subway systems of the greater city of New York.

Under Hill's Estimate.

Whether the aggregate money val-

ue to the producer of the harvests of this year be \$9,000,000,000 or a billion dollars more than that, nevertheless the amount is far under the estimate made by James J. Hill of what the farmers of the United States should each year receive for their crops. Mr. Hill is understood to have said not quite a year ago, when the estimate was made of the money value of the crops of 1911 of \$8,500,000 round numbers, that this was only about one-half of the money the farmers should receive on the average year. Mr. Hill asserted, according to remarks attributed by friends to him, that the crop of the United States should now have a money value of at least \$15,000,000,000. He meant by this statement, that, enough improvement in the methods of cultivation of the soil and sowing and harvesting, in adopting possible economies in the production of crops in applying principles of science, especially of chemistry, to agriculture, and in the conquest of new lands so that they could be made available for crops, the farmers' opportunity for doubling the yearly return is unquestioned.

Favorable climate has, of course, been the chief beneficent agent in the realization of what are likely to be bumper crops this year. This condition, however, is in part due to improved methods of farming. Highly skilled artisanship can be made an accessory of as great value to the farmers as it is in the production of machinery, agricultural implements and iron and steel products. That is regarded here as one of the thoughts Mr. Hill had in mind when he said, as quoted, that the farmers of the United States should now be producing crops of the money value in the aggregate of \$15,000,000,000 a year.

If the farmers of the United States are to receive in gross between nine billion and ten billions for this year's harvest, that sum does not represent the total payments which are to be made. If the estimate made some months ago by Mr. B. F. Yoakum of the proportionate part of the total payments for products of the soil be correct, then the crops of this year will be turned into about \$15,000,000,000. For the estimate of nine or ten billions as the money value of the crops merely represents what the producers of the crops are to receive. There are afterward the consumers to be thought of, and if prevailing high retail prices for the food necessary for life, and for clothing, be maintained then it does not seem an unreasonable estimate that the harvests of this year will represent ultimately as much as \$15,000,000,000.

Bloomington

Miss Ellen Woodland is attending the Long-Nye nuptials in Chauncy, Ohio.

Mr. Fred West was a business visitor in Marion Wednesday and Thursday.

Mrs. Ray Ervin and daughter, Ruth, spent the past week in Columbus visiting friends.

Miss Mamie Swinehart, who has spent the past six weeks as the guest of her grandmother, Mrs. Swinehart, returned to her home in Charles-town, Illinois, Thursday.

Mr. and Mrs. Charles W. Larrimer, Mr. and Mrs. Charles Hester and children, John and Dorothy, motored over to Springfield Monday to spend the day.

Mr. Frank Woodland is assisting with the management of the Pick-away county fair at Circleville this week.

Mr. W. A. Howland goes to Circleville Friday to witness his fast pacer, Mark McKinney, perform in the 2:17 class event.

Mr. and Mrs. Samuel Taylor, of Dayton spent Sunday visiting Mr. Taylor's parents, Mr. and Mrs. Daniel Taylor.

Mr. William Jefferson, Jr., of Cincinnati, is spending the week as the guest of his parents, Mr. and Mrs. William Jefferson, Sr.

Mr. and Mrs. Joseph Allemang and Mr. and Mrs. J. V. Kennell are attending the Marysville fair and races this week.

Mr. and Mrs. James Collett, of Wilmington, spent Saturday and Sunday as the guests of Mrs. Collett's parents, Mr. and Mrs. J. R. McCoy.

Mrs. G. W. Holdren and daughter, Pauline, are spending the week at the home of Mr. and Mrs. William Holdren near Good Hope.

Mr. Perry Allen went to Columbus Tuesday morning to continue his studies at Bliss Business College.

Mr. Paul Jefferson and Miss Lucille Jefferson spend Friday in Columbus.

Yatesville

John Tway and family spent Sunday with Mrs. Mary Tway.

Mr. and Mrs. Homer Hutson attended camp meeting at Sabina Sunday.

Quite a number of people from this vicinity attended the fair and centennial at Columbus last week.

Harvy Gibson and family visited with Wm. Gibson and family, Sunday.

The Ladies' Aid Society of Union Chapel will meet at the home of Mrs. Ada Klever, September 11.

Miss Ethel Little was one of the lucky ones in the Niagara Falls contest given by the Jeffersonville Citizens. The contest closing Saturday evening.

Miss Mary Clear visited last week with Misses Ollie and Jessie Cook.

Misses Laura and Oia Durdinger and Mrs. Clark Durdinger spent Friday evening with Miss Grace Minnick.

Miss Ethel Little spent Saturday with her brother J. H. Little of Jeffersonville.

More Hunting And Fishing

Looking forward to the day when the streams of Ohio will furnish a fisherman's paradise, sufficient for the most exacting Izaak Walton, and when the fox hunt of old will be run with as good sport and as ample returns as formerly, a statewide curdsade is being conducted by the Ohio fish and game commission against pollution of streams and illegal forms of hunting game and fish.

"With better laws being passed constantly, and vigilance exercised by the department ever on the increase, I can look forward to the day when for ideal sport, a man will not be obliged to go out of the state," declares Game Warden Speaks, yesterday.

Fishing Improves.

"We are hampered greatly by the present laws, which allow us to make actual prosecutions only when a stream has been polluted to the extent that the health of individuals is menaced. Generally, unless this is the case, we do not have the active co-operation of boards of health. When we find a bad state of affairs we simply call the attention of the persons who are causing it, and with few exceptions they desist.

"Prospects for good fishing are constantly increasing. It is immeasurably better than it was five years ago. In many sections of the state the sport is good at present. Every time we purge a stream we are providing both for good fishing and we are also taking measures of prevention against disease and infection.

"The outlook for good hunting this fall is better, probably, than at any time in recent years. Rabbits will be plentiful and farmers are reporting many bevy of quail.

Communities Help.

It is not generally known but the fox is increasing in numbers in the state. With his sly, shrewd habits of life, he is about the only wild animal, except the rabbit, which has been able to multiply and prosper in spite of the difficulties which have come with civilization.

"Some communities are already taking steps to prevent the indiscriminate killing of the animal, reserving him for old-time fox hunts during the open season. It is great sport, and since we could not allow an overabundance of foxes to exist, it is entirely within the pale to do it. The sport will constantly increase in quality, and if judiciously handled will last for all times."

HEALTH HINT FOR TODAY.

Good For Hoarseness. The white of an egg beaten up with a little sugar and lemon juice will afford relief. A physician should be consulted to determine the cause of persistent hoarseness.

Says Wifey Married Him Under a Fictitious Name

The domestic troubles of George M. Reed, furniture dealer, now of Chillicothe, were aired in the police court in Chillicothe Wednesday, and as a result Reed has instituted divorce proceedings, claiming that his wife married him under the name of Breece, when her right name was Knight.

Reed's arrest was the result of an assault upon his wife, whom he is alleged to have held while his son pulled her hair. The Chillicothe Advertiser, mentioning the affair, says in part:

"On cross examination, Mrs. Reed said that she and Reid were married on October 12, 1911, after an acquaintance through correspondence of two months. She said that after Reid had let her go after holding her, she proceeded to tear his shirt clear off. To Attorney Capple's query as to how many hairs were pulled out of her head, she said that she had not counted them. She denied grabbing Reid by the throat. Reid's torn shirt was next introduced as Exhibit A in the case. She denied making the statement that she was going to ruin Reid's business by having him arrested.

Mrs. Reid claimed that she and her husband had had trouble before and that he had struck her and choked her on two occasions before. She denied using profanity and denied saying, when asked concerning a former time when she was about to place charges of assault against her husband, that these charges were lies.

George Reid, the husband and defendant, next took the stand. He first claimed that his wife had accused him of being too intimate with a lady customer living in the West End. On Sunday, he claimed, this and other things, his son's punishment by Mrs. Reid and her referring to him as "a little nigger" had led to words and his wife had sprung at him and grabbed him by the throat and choked him. Then Elliott, the little boy, grabbed her by the hair when he saw papa's plight, but Reid claims he pulled no hair out, only Mrs. Reid's hair "rat".

Reid, on cross-examination, denied striking his wife, denied telling his son to pull her hair and claimed that Mrs. Reid had frightened his little daughter, Eldella into testifying in her behalf. Elliott Reid said:

"Mamma started choking papa and I pulled her hair." Reid was found guilty and fined \$10 and costs. Both husband and wife were told to stop their domestic troubles, as they were becoming annoying to the neighborhood.

Reid introduced divorce proceedings against his wife yesterday, claiming that she married him under a fictitious name.

MANY DRIVEN FROM HOME.

Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and cure yourself at home. Stay right there, with your friends, and take this safe medicine. Throat and lung troubles find quick relief and health returns. Its help in coughs, colds, grip, croup, whooping-cough and sore lungs make it a positive blessing. 50c and \$1.00. Trial bottle free. Guaranteed by Blackmer & Tanquary.

NOT A COMPLETE SUCCESS

Workings of Brother Bogus' Conscience Evidently Were Merely In the First Throes.

"Ever since I was done converted last week," remarked a certain colored citizen in a chastenedly triumphant tone, "muh conscience gnaws me when I thinks o' what a sinner I was befo' I seed the blessed light. I was false to de Lawd and untrue to muh feller men, and muh conscience gnaws—"

"Do it gnaw yo' enough, Brudder Bogus," grimly interrupted old Brother Gumpshun, "to make yo' pay me back dem fou dollars yo' borried off'n me yeeah befo' last?"

"W'y—w'y, sah!—yo' knows how close de times is, dese days, and—well, sah, here's haffer dollar, dat I'll pay yo' now, and—"

"Huh! If dat's de best yo' kin do, sah, yo' conscience ain't gnawin'—it's dess uh-nibblin'!"—Satire.

Miss Ethel Little spent Saturday with her brother J. H. Little of Jeffersonville.

More Hunting And Fishing

Looking forward to the day when the streams of Ohio will furnish a fisherman's paradise, sufficient for the most exacting Izaak Walton, and when the fox hunt of old will be run with as good sport and as ample returns as formerly, a statewide curcade is being conducted by the Ohio fish and game commission against pollution of streams and illegal forms of hunting game and fish.

"With better laws being passed constantly, and vigilance exercised by the department ever on the increase, I can look forward to the day when for ideal sport, a man will not be obliged to go out of the state," declares Game Warden Speaks, yesterday.

Fishing Improves.

"We are hampered greatly by the present laws, which allow us to make actual prosecutions only when a stream has been polluted to the extent that the health of individuals is menaced. Generally, unless this is the case, we do not have the active co-operation of boards of health. When we find a bad state of affairs we simply call the attention of the persons who are causing it, and with few exceptions they desist.

"Prospects for good fishing are constantly increasing. It is immeasurably better than it was five years ago. In many sections of the state the sport is good at present. Every time we purge a stream we are providing both for good fishing and we are also taking measures of prevention against disease and infection.

"The outlook for good hunting this fall is better, probably, than at any time in recent years. Rabbits will be plentiful and farmers are reporting many bevy of quail.

Communities Help.

It is not generally known but the fox is increasing in numbers in the state. With his sly, shrewd habits of life, he is about the only wild animal, except the rabbit, which has been able to multiply and prosper in spite of the difficulties which have come with civilization.

"Some communities are already taking steps to prevent the indiscriminate killing of the animal, reserving him for old-time fox hunts during the open season. It is great sport, and since we could not allow an overabundance of foxes to exist, it is entirely within the pale to do it. The sport will constantly increase in quality, and if judiciously handled will last for all times."

HEALTH HINT FOR TODAY.

Good For Heartiness.
The white of an egg beaten up with a little sugar and lemon juice will afford relief. A physician should be consulted to determine the cause of persistent heartiness.
